1. General information

This Privacy Policy is an integral part of the “Terms and Conditions” and shall be read and interpreted in conjunction with it.

We respect your privacy and are committed to protecting it through our compliance with this privacy policy (“Policy” “Privacy Agreement” “Main Privacy Policy” “Main Privacy Notice”). This Policy describes the types of information we may collect from you or that you may provide (“Personal Information”) on the qfreemart.in website (“Website”), “QFREEMART” mobile application (“Mobile Application” “Application” “App”), and any of their related products and services (collectively, “Services”), and our practices for collecting, using, maintaining, protecting, and disclosing that Personal Information. It also describes the choices available to you regarding our use of your Personal Information and how you can access and update it.

This Policy is a legally binding agreement between you (“User”, “you” or “your”) and QFREEMART (“QFREEMART”, “we”, “us” or “our”) and is applicable to all vendors, buyers, and third parties who access or use the Marketplace, as well as visitors to our website.

It is important that upon accessing and before using the Application or website, you carefully read and understand these terms and you are aware of the latest updates which are regularly posted by us. Therefore, henceforth, we consider that any action performed by you on or through the App or Website is an intentional act based on a well-documented decision.

If you are entering into this agreement on behalf of a business or other legal entity, you represent that you have the authority to bind such entity to this agreement, in which case the terms “User”, “you” or “your” shall refer to such entity. If you do not have such authority, or if you do not agree with the terms of this agreement, you must not accept this agreement and may not access and use the Services.

By using the App or Website, you acknowledge and accept that : (1) you have read and understood the terms and conditions of use, (2) you agree to be bound by the terms of this Policy, (3) you are solely responsible for any actions taken and their consequences.

By creating an account, accessing the Platform, or clicking “I Agree” or similar confirmation during registration or onboarding, the user electronically agrees to be bound by this Agreement. Such electronic acceptance shall have the same legal effect as a physical signature.

The Main Privacy Policy is supplemented by Specific Privacy Notices listed below, which are an integral and equally enforceable part of it under the law. If any clause within the Main Privacy Policy or Specific Privacy Notices becomes null and void, the remaining Privacy Agreement will remain fully valid. In case of any discrepancies between the General and Specific Privacy Notices, the provisions of the Main Privacy Policy shall prevail.

Specific Privacy Notices:

1. Privacy Notice for Customers
2. Privacy Notice for Vendors / Vendor Data Processing Agreement
3. Privacy Notice for Android users
4. Privacy Notice for iOS users
5. Cookie policy

This Policy does not apply to the practices of companies that we do not own or control, or to individuals that we do not employ or manage.

2. Legal framework

We are committed to safeguard your privacy and ensure that your personal data is processed in a lawful, fair, and transparent manner, in compliance with the applicable laws and regulations of the India, as well as internationally recognized standards. For the avoidance of doubt, it is hereby established that the laws and regulations of India shall take precedence over any other standards, regulations, or frameworks in matters pertaining to the subject at hand.

3. Definitions

Data: An organized or unorganized set of data, facts, concepts, instructions, views, or measurements, in the form of numbers, letters, words, symbols, images, videos, signs, sounds, maps, or any other form, that is interpreted, exchanged or processed by humans or computers, which also includes information wherever it appears herein.

Personal Data: Any data relating to an identified natural person, or one who can be identified directly or indirectly by way of linking data, using identifiers such as name, voice, picture, identification number, online identifier, geographic location, or one or more special features that express the physical, psychological, economic, cultural or social identity of such person. It also includes Sensitive Personal Data and Biometric Data.

Sensitive Personal Data: Any data that directly or indirectly reveals a natural person's family, racial origin, political or philosophical opinions, religious beliefs, criminal records, biometric data, or any data related to the health of such person, such as his/her physical, psychological, mental, genetic or sexual condition, including information related to health care services provided thereto that reveals his/her health status.

Data Subject: The natural person who is the subject of the Personal Data.

Establishment: Any company or sole proprietorship established inside or outside the State, including companies which the federal or local government partially or wholly owns or has a shareholding therein.

Controller: An establishment or natural person who has Personal Data and who, given the nature of his/her activity, specifies the method, criteria and purpose of Processing such Personal Data, whether individually or jointly with other persons or establishments.

Processor: An establishment or natural person who processes Personal Data on behalf of the Controller, as directed and instructed by the Controller.

Processing: Any operation or set of operations which is performed on Personal Data using any electronic means, including Processing and other means. This process includes collection, storage, recording, organization, adaptation, alteration, circulation, modification, retrieval, exchange, sharing, use, or classification or disclosure of Personal Data by transmission, dissemination or distribution, or otherwise making it available, or aligning, combining, restricting, blocking, erasing or destroying Personal Data or creating models therefor.

Automated Processing: Processing that is carried out using an electronic program or system that is automatically operated, either completely independently without any human intervention, or partially independently with limited human supervision and intervention.

Pseudonymization: The Processing of Personal Data in such a way that the data, after completion of Processing, can no longer be linked and attributed to the Data Subject without the use of additional information, as long as such additional information is kept separately and safely and subject to the technical and organizational measures and procedures, specified according to the provisions hereof, to ensure non-attribution of Personal Data to an identified or identifiable natural person.

Anonymization: The Processing of Personal Data in such a way that anonymizes the Data Subject's identity so that such data can no longer be linked and attributed to the Data Subject and the Data Subject can no longer be identified in any way whatsoever.

Data Breach: A breach of information security and Personal Data by illegal or unauthorized access, including copying, sending, distributing, exchanging, transmitting, circulating or Processing data in a way that leads to disclosure thereof to third parties, or damage or alteration thereof during the processes of storage, transmission and Processing.

Profiling: A form of Automated Processing consisting of the use of Personal Data to evaluate certain personal aspects relating to a Data Subject, including to analyze or predict aspects concerning his/her performance, economic situation, health, personal preferences, interests, behavior, location, movements or reliability.

Consent: The consent given by a Data Subject to authorize third parties to process his/her Personal Data, provided that such consent is a specific, informed and unambiguous indication of the Data Subject's agreement to the Processing of his/her Personal Data, by a statement or by a clear affirmative action.

Mobile Environments

- **Android Operating System:** A mobile-based operating system developed by Google.
- **iOS Operating System:** A mobile-based operating system developed by Apple to run exclusively on iPhone, iPad, and iPod devices.
- **Mobile Web:** A website that is viewed through a device's web browser.
- **Mobile App:** An application that is designed to run on various mobile devices, such as smartphones and tablets.
- **WebView:** A browser view within an app that can display web content.

4. Legal basis

Under the Digital Personal Data Protection Act, 2023 and the Information Technology Act, 2000 along with the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011, personal data must be processed in a lawful and transparent manner. Processing of personal data may occur where a valid legal basis exists including consent of the Data Principal, contractual necessity, legal obligations, or legitimate operational purposes permitted under applicable Indian law. However, the following cases, in which Processing is considered lawful, are excluded from such prohibition:

1. **Public interest :** if the Processing is necessary to protect the public interest.
2. **Public availability:** if the Processing is for Personal Data that has become available and known to the public by an act of the Data Subject.
3. **Legal defence:** if the Processing is necessary to initiate or defend against any actions to claim rights or legal proceedings, or related to judicial or security procedures
4. **Occupational medicine:** if the Processing is necessary for the purposes of occupational or preventive medicine, for assessment of the working capacity of an employee, medical diagnosis, provision of health or social care, treatment or health insurance services, or management of health or social care systems and services, in accordance with the legislation in force in the State.
5. **Health care services:** if the Processing is necessary for the purposes of occupational or preventive medicine, for assessment of the working capacity of an employee, medical diagnosis, provision of health or social care, treatment or health insurance services, or management of health or social care systems and services, in accordance with the legislation in force in the State.
6. **Public health:** if the Processing is necessary to protect public health, including the protection from communicable diseases and epidemics, or for the purposes of ensuring the safety and quality of health care, medicines, drugs and medical devices, in accordance with the legislation in force in the State
7. **Archival and research:** if the Processing is necessary for archival purposes or for scientific, historical and statistical studies, in accordance with the legislation in force in the State.
8. **Data Subject interests:** if the Processing is necessary to protect the interests of the Data Subject.
9. **Employment and social protection:** if the Processing is necessary for the Controller or Data Subject to fulfil his/her obligations and exercise his/her legally established rights in the field of employment, social security or laws on social protection, to the extent permitted by those laws.
10. **Contractual obligation:** if the Processing is necessary to perform a contract to which the Data Subject is a party or to take, at the request of the Data Subject, procedures for concluding, amending or terminating a contract.
11. **Other legal obligations:** if the Processing is necessary to fulfil obligations imposed by other laws of the State on Controllers.
12. **Executive Regulations:** any other cases set by the Executive Regulations of this Decree Law

5. Your data protection rights

Under data protection law, you have rights including:

Right of Access to Information

You have the right to obtain information on the categories of personal data being processed, the purpose of the processing, the decisions made upon automated processing, entities with whom the personal data is shared.

Right to Request Personal Data Portability

You have the right to receive your personal data in a structured and machine-readable format.

Right to Rectification or Erasure of Personal Data

You have the right to rectify inaccurate personal data and the right to delete your personal data and be forgotten.

Right to Restriction of Processing

You have the right to restrict and stop the processing of your data where it is inaccurate or you object to the purpose of the processing.

Right to Stop Processing

You have the right to object and stop the processing of their personal data in cases of direct marketing purposes, including profiling related to direct marketing, and in cases of processing for statistical surveys unless it is necessary to achieve the public interest.

Right of Processing and Automated Processing

You have the right to object to automated decisions made by automated processing of your personal data.

6. Collection of personal information

You can access and use the Services without telling us who you are or revealing any information by which someone could identify you as a specific, identifiable individual. If, however, you wish to use some of the features offered on the Services, you may be asked to provide certain Personal Information (for example, your name and e-mail address).

We receive and store any information you knowingly provide to us when you create an account, publish content, or fill any forms on the Services. When required, this information may include the following:

- Account details (such as user name, unique user ID, password, etc)
- Contact information (such as email address, phone number, etc)
- Basic personal information (such as name, country of residence, etc)
- Geolocation data of your device (such as latitude and longitude)
- Certain features on the mobile device (such as contacts, calendar, gallery, etc)
- Information about other individuals (such as your family members, friends, etc)
- Any other materials you willingly submit to us (such as articles, images, feedback, etc)

For users accessing the QFREEMART mobile applications through mobile platforms such as Android and iOS, certain data collection disclosures may be presented through platform-specific privacy transparency mechanisms including Google Play Data Safety disclosures and Apple App Privacy Labels. These disclosures describe how data may be collected, processed, or shared as required by the respective platform policies.

Certain features of the mobile application may request access to device capabilities such as location services, camera, storage, contacts, or notifications. These permissions are used solely for providing platform features such as order delivery coordination, profile image uploads, customer support communication, and other operational services. Users may manage or revoke these permissions through their device settings

You can choose not to provide us with your Personal Information, but then you may not be able to take advantage of some of the features on the Services. Users who are uncertain about what information is mandatory are welcome to contact us.

6.1 Automatic collection of information

When you open the Website or use the Mobile Application, our servers automatically record information that your browser or device sends. This data may include information such as your device's IP address and location, browser and device name and version, operating system type and version, language preferences, the webpage you were visiting before you came to the Services, pages of the Services that you visit, the time spent on those pages, the information you search for on the Services, access times and dates, and other statistics.

Information collected automatically is used only to identify potential cases of abuse and establish statistical information regarding the usage and traffic of the Services. This statistical information is not otherwise aggregated in such a way that would identify any particular User of the system.

7. Use and processing of collected information

For the purposes of the Digital Personal Data Protection Act, 2023, QFREEMART generally acts as a Data Fiduciary when determining the purpose and means of processing personal data collected through the platform. In certain situations where services are provided on behalf of vendors or partners, QFREEMART may act as a Data Processor processing personal data under the instructions of such entities.

QFREEMART operates a digital marketplace platform connecting customers, vendors, and service providers. Vendors and service providers using the platform may independently process certain personal data required to fulfill transactions or services. In such situations, those vendors act as independent data fiduciaries or controllers for the data they process.

Vendors, merchants, and service providers operating on the QFREEMART platform may independently determine the purposes and means of processing personal data required for order fulfillment, delivery coordination, customer communication, and service completion. In such circumstances, those vendors act as independent data fiduciaries or controllers for the personal data processed by them. QFREEMART is not responsible for the independent privacy practices of such vendors beyond the data shared strictly for transaction execution.

QFREEMART collects and processes only the personal data that is necessary for the purposes described in this Policy and for the provision of services through the platform. Personal data that is not required for operational, legal, or security purposes will not be collected or retained.

We act as a data controller and a data processor when handling Personal Information, unless we have entered into a data processing agreement with you in which case you would be the data controller and we would be the data processor.

Our role may also differ depending on the specific situation involving Personal Information. We act in the capacity of a data controller when we ask you to submit your Personal Information that is necessary to ensure your access and use of the Services.

In such instances, we are a data controller because we determine the purposes and means of the processing of Personal Information.

We act in the capacity of a data processor in situations when you submit Personal Information through the Services. We do not own, control, or make decisions about the submitted Personal Information, and such Personal Information is processed only in accordance with your instructions. In such instances, the User providing Personal Information acts as a data controller.

In order to make the Services available to you, or to meet a legal obligation, we may need to collect and use certain Personal Information. If you do not provide the information that we request, we may not be able to provide you with the requested products or services. Any of the information we collect from you may be used for the following purposes:

- Create and manage user accounts
- Send administrative information
- Send product and service updates
- Respond to inquiries and offer support
- Request user feedback
- Improve user experience
- Enforce terms and conditions and policies
- Protect from abuse and malicious users
- Respond to legal requests and prevent harm
- Run and operate the Services

Processing your Personal Information depends on how you interact with the Services, where you are located in the world and if one of the following applies:

1. you have given your consent for one or more specific purposes;
2. provision of information is necessary for the performance of an agreement with you and/or for any pre- contractual obligations thereof;
3. processing is necessary for compliance with a legal obligation to which you are subject;
4. processing is related to a task that is carried out in the public interest or in the exercise of official authority vested in us;
5. processing is necessary for the purposes of the legitimate interests pursued by us or by a third party. We may also combine or aggregate some of your Personal Information in order to better serve you and to improve and update our Services.

Personal data collected through the platform shall only be used for the purposes specified in this Privacy Policy or for purposes that are compatible with those described herein. Personal data will not be processed for unrelated purposes without obtaining additional consent where required under applicable law.

Note that under some legislations we may be allowed to process information until you object to such processing by opting out, without having to rely on consent or any other of the legal bases. In any case, we will be happy to clarify the specific legal basis that applies to the processing, and in particular whether the provision of Personal Information is a statutory or contractual requirement, or a requirement necessary to enter into a contract.

8. Managing information

You are able to delete certain Personal Information we have about you. The Personal Information you can delete may change as the Services change. When you delete Personal Information, however, we may maintain a copy of the unrevised Personal Information in our records for the duration necessary to comply with our obligations to our affiliates and partners, and for the purposes described below. If you would like to delete your Personal Information or permanently delete your account, you can do so on the settings page of your account on the Services.

QFREEMART takes reasonable steps to ensure that personal data processed through the platform is accurate and kept up to date. Users are encouraged to update their profile information where necessary to ensure the correctness of stored data.

9. Disclosure of information

Depending on the requested Services or as necessary to complete any transaction or provide any Service you have requested, we may share your information with our affiliates, contracted companies, and service providers (collectively, "Service Providers") we rely upon to assist in the operation of the Services available to you and whose privacy policies are consistent with ours or who agree to abide by our policies with respect to Personal Information. We will not share any information with unaffiliated third parties.

Service Providers are not authorized to use or disclose your information except as necessary to perform services on our behalf or comply with legal requirements. Service Providers are given the information they need only in order to perform their designated functions, and we do not authorize them to use or disclose any of the provided information for their own marketing or other purposes. We will share and disclose your information only with the following categories of Service Providers:

- Cloud computing services
- Communication and collaboration services
- Data analytics services
- Data storage services
- Performance monitoring services
- Product engineering and design services
- Social networks
- User authentication services
- Website hosting service providers
- App-stores (Google Play / Apple App-store)

Where personal data is shared with vendors or partners for the purpose of fulfilling user orders or providing services through the platform, such vendors are responsible for processing the data in compliance with applicable data protection laws and the contractual obligations agreed with QFREEMART.

QFREEMART shares only the minimum personal data required for vendors or service providers to fulfill a transaction or service request. Such data may include order details, delivery address, and necessary contact information required for service fulfillment.

We may also disclose any Personal Information we collect, use or receive if required or permitted by law, such as to comply with a subpoena or similar legal process, and when we believe in good faith that disclosure is necessary to protect our rights, protect your safety or the safety of others, investigate fraud, or respond to a government request.

10. Retention of information

We will retain and use your Personal Information for the period necessary to comply with our legal obligations, as long as your user account remains active, to enforce our agreements, resolve disputes, and unless a longer retention period is required or permitted by law.

Certain operational records including courier identification data, delivery logs, order transaction records, dispute records, and security monitoring logs may be retained for extended periods where necessary for fraud prevention, regulatory compliance, tax compliance, or cooperation with law enforcement authorities. In specific cases related to courier identity verification and delivery investigations, such records may be retained for a period of up to fifteen (15) years where required for legal defence or investigation purposes.

We may use any aggregated data derived from or incorporating your Personal Information after you update or delete it, but not in a manner that would identify you personally. Once the retention period expires, Personal Information shall be deleted. Therefore, the right to access, the right to erasure, the right to rectification, and the right to data portability cannot be enforced after the expiration of the retention period.

11. Cookies

Our Services use "cookies" to help personalize your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you, and can only be read by a web server in the domain that issued the cookie to you. If you choose to decline cookies, you may not be able to fully experience the features of the Services.

We may use cookies to collect, store, and track information for security and personalization, to operate the Services, and for statistical purposes. Please note that you have the ability to accept or decline cookies. Most web browsers automatically accept cookies by default, but you can modify your browser settings to decline cookies if you prefer.

12. Data analytics

Our Services may use third-party analytics tools that use cookies, web beacons, or other similar information-gathering technologies to collect standard internet activity and usage information. The information gathered is used to compile statistical reports on User activity such as how often Users visit our Services, what pages they visit and for how long, etc. We use the information obtained from these analytics tools to monitor the performance and improve our Services. We do not use third-party analytics tools to track or to collect any personally identifiable information of our Users and we will not associate any information gathered from the statistical reports with any individual User.

QFREEMART may generate aggregated and anonymized datasets derived from platform activity for analytical, operational, and service improvement purposes. Such datasets do not identify individual users and may be used internally to improve platform performance and reliability.

13. Do Not Track signals

Some browsers incorporate a Do Not Track feature that signals to websites you visit that you do not want to have your online activity tracked. Tracking is not the same as using or collecting information in connection with a website. For these purposes, tracking refers to collecting personally identifiable information from consumers who use or visit a website or online service as they move across different websites over time. The Services do not track its visitors over time and across third-party websites. However, some third-party websites may keep track of your browsing activities when they serve you content, which enables them to tailor what they present to you. For a description of Do Not Track protocols for browsers and mobile devices or to learn more about the choices available to you, visit internetcookies.com

14. Social media features

Our Services may include social media features, such as the Facebook and Twitter buttons, Share This buttons, etc (collectively, "Social Media Features"). These Social Media Features may collect your IP address, what page you are visiting on our Services, and may set a cookie to enable Social Media Features to function properly. Social Media Features are hosted either by their respective providers or directly on our Services. Your interactions with these Social Media Features are governed by the privacy policy of their respective providers.

15. Email marketing

We offer electronic newsletters to which you may voluntarily subscribe at any time. We are committed to keeping your e-mail address confidential and will not disclose your email address to any third parties except as allowed in the information use and processing section or for the purposes of utilizing a third-party provider to send such emails. We will maintain the information sent via e-mail in accordance with applicable laws and regulations.

In compliance with applicable electronic communication and marketing regulations, all e-mails sent from us will clearly state who the e-mail is from and provide clear information on how to contact the sender. You may choose to stop receiving our newsletter or marketing emails by following the unsubscribe instructions included in these emails or by contacting us. However, you will continue to receive essential transactional emails.

Certain operational records such as delivery logs, transaction histories, courier identification information, and communication records may be retained for extended periods where required for fraud prevention, dispute resolution, tax compliance, or cooperation with law enforcement authorities.

16. Push notifications

We offer push notifications to which you may also voluntarily subscribe at any time. To make sure push notifications reach the correct devices, we use a third-party push notifications provider who relies on a device token unique to your device which is issued by the operating system of your device. While it is possible to access a list of device tokens, they will not reveal your identity, your unique device ID, or your contact information to us or our third-party push notifications provider. We will maintain the information sent via e-mail in accordance with applicable laws and regulations. If, at any time, you wish to stop receiving push notifications, simply adjust your device settings accordingly.

17. Links to other resources

The Services contain links to other resources that are not owned or controlled by us.

Please be aware that we are not responsible for the privacy practices of such other resources or third parties. We encourage you to be aware when you leave the Services and to read the privacy statements of each and every resource that may collect Personal Information.

18. Information security

QFREEMART implements appropriate technical and organizational measures designed to protect personal data against unauthorized access, alteration, disclosure, or destruction.

Security measures implemented by the platform may include:

- encryption technologies for protecting sensitive information
- secure communication protocols such as TLS / SSL for data transmitted between user devices and servers
- role-based access control systems

- secure authentication mechanisms
- monitoring systems designed to detect abnormal access patterns
- periodic system security reviews

Access to personal data is restricted to authorized personnel who require access to perform their operational responsibilities. Employees and contractors handling personal data are subject to confidentiality obligations and internal access control policies.

We secure information you provide on computer servers in a controlled, secure environment, protected from unauthorized access, use, or disclosure. We maintain reasonable administrative, technical, and physical safeguards in an effort to protect against unauthorized access, use, modification, and disclosure of Personal Information in our control and custody. However, no data transmission over the Internet or wireless network can be guaranteed.

Therefore, while we strive to protect your Personal Information, you acknowledge that:

1. there are security and privacy limitations of the Internet which are beyond our control;
2. the security, integrity, and privacy of any and all information and data exchanged between you and the Services cannot be guaranteed; and
3. any such information and data may be viewed or tampered with in transit by a third party, despite best efforts.

As the security of Personal Information depends in part on the security of the device you use to communicate with us and the security you use to protect your credentials, please take appropriate measures to protect this information.

QFREEMART maintains system logs and security monitoring records where required for cybersecurity monitoring, fraud detection, and compliance with applicable cybersecurity regulations.

We protect your data with the highest security measures

18.1 Data encryption

QFREEMART employs standard and secure encryption algorithms to encrypt all critical communication between the App and the server. This includes 128-bit SSL encryption and Advanced Encryption Standard (AES) 256-bit encryption. In addition, we use fire-walling, network isolation, intrusion detection, and other measures to ensure that your data is secure from unauthorized access. These measures are designed to protect your data from potential vulnerabilities and ensure that your data is always secure. Cipher suites used are regularly reviewed and deprecated if they may become insecure in the future. Where appropriate, encryption standards such as AES-256 encryption for stored data and secure encryption protocols for data transmitted over networks may be implemented in accordance with industry best practices.

Users are responsible for maintaining the confidentiality of their account credentials including passwords, authentication codes, and device access. QFREEMART shall not be responsible for unauthorized access resulting from the user's failure to safeguard such credentials.

19. Data centres

QFREEMART servers are operated in a co-location model in data centers with an ISO 27001 certified data center operator. The data center operator is audited by QFREEMART regularly. Our servers are protected by the highest physical means and only selected QFREEMART employees with operational tasks have access to them. Data may be hosted on secure cloud infrastructure operated by reputable hosting providers. Where such infrastructure is operated by third-party providers, appropriate contractual and security safeguards are implemented to ensure that personal data remains protected in accordance with applicable privacy and cyber security regulations.

Reliability

QFREEMART networks are designed to ensure trouble-free service with a maximum uptime. All networks are redundant and secured by automatic failover mechanisms. This ensures that in case of failure, the automatic failover mechanism detects errors and switches to a secondary connection to maintain high availability.

20. Subcontractors

QFREEMART avoids involving subcontractors as much as possible. However, when necessary, we conduct a due diligence and carefully select them. We conduct regularly audits to ensure that all subcontractors meet our high standards for data security and protection. All third-party service providers that process personal data on behalf of QFREEMART are required to enter into contractual agreements that require them to process personal data only under documented instructions and in compliance with applicable data protection laws.

21. Profile creation

QFREEMART utilizes the information provided by Users about their usage of the application to classify them and improve the application to meet their needs.

The classification is based solely on first-party data. We use information that our Users provide us, such as their historical orders and popularity among new users, to suggest similar stores that may be of interest to them. This classification is intended to ensure that our Users find relevant content, Partners, or offers that may be suitable according to their preferences. It will never have any legal effect on them or the provision of services by QFREEMART, Partners, or Couriers.

It is important to note that this classification is conducted solely for the purpose of improving the user experience and does not have any legal implications. The information used for classification is obtained from the Users themselves and is not shared with any third parties. QFREEMART takes the privacy and security of its Users' data seriously and adheres to all applicable laws and regulations governing the collection, use, and storage of personal data.

22. Automated decision making

QFREEMART does not make any decisions that could significantly affect our Users, Couriers, or Job Applicants based solely on automated processing of their data (e.g., reordering from stores where Users have ordered in the past). All decision-making processes of QFREEMART involve human intervention (e.g., defining the conditions that the User must meet to be considered for an offer, such as location).

It is important to note that QFREEMART values the privacy and security of its Users' data and adheres to all applicable laws and regulations governing the collection, use, and storage of personal data. We believe that human intervention is necessary to ensure that all decisions made by QFREEMART are fair and unbiased. Therefore, we do not rely solely on automated processing of data to make decisions that could significantly affect our Users, Couriers, or Job Applicants.

23. International transfer of data

QFREEMART may transfer your data outside the borders of the India, for example to the United States, when choosing service providers. In such cases, QFREEMART ensures that the service providers are in compliance with the standard contractual clauses and security standards and that they always process the data in accordance with QFREEMART's instructions.

QFREEMART has a contractual relationship with service providers under which they agree to comply with QFREEMART's instructions and put in place the necessary security measures to protect your data. If QFREEMART is compelled to carry out further processing by India law, it informs the service provider of such legal requirements prior to the processing.

QFREEMART may subsequently change, supplement, or replace the instructions initially given to the service provider by means of individual instructions and is entitled to issue appropriate instructions at any time. This includes instructions regarding the correction, deletion, and prohibition of data. All instructions issued are documented by both QFREEMART and the service provider.

Service providers may only collect, process, or use data pursuant to a master contract and in accordance with QFREEMART's instructions. This applies in particular to the transfer of personal data to a third country or an international organization. External service providers are required to inform QFREEMART if they consider that an instruction issued by QFREEMART is in contravention of the data protection legislation. Furthermore, service providers are entitled to suspend the execution of the instruction concerned until its confirmation or modification by QFREEMART, and they have a duty to refuse to carry out any instructions that are clearly illegal.

It is important to note that QFREEMART takes the privacy and security of its Users' data seriously and adheres to all applicable laws and regulations governing the collection, use, and storage of personal data. We believe that it is necessary to ensure that all service providers comply with our instructions and put in place the necessary security measures to protect your data. Therefore, we have established a contractual relationship with service providers to ensure that they comply with our instructions and adhere to all applicable laws and regulations.

24. Privacy of children

We do not knowingly collect any Personal Information from children under the age of 18. If you are under the age of 18, please do not submit any Personal Information through the Services. If you have reason to believe that a child under the age of 18 has provided Personal Information to us through the Services, please contact us to request that we delete that child's Personal Information from our Services.

We encourage parents and legal guardians to monitor their children's Internet usage and to help enforce this Policy by instructing their children never to provide Personal Information through the Services without their permission. We also ask that all parents and legal guardians overseeing the care of children take the necessary precautions to ensure that their children are instructed to never give out Personal Information when online without their permission.

25. Data breach

In the event we become aware that the security of the Services has been compromised or Users' Personal Information has been disclosed to unrelated third parties as a result of external activity, including, but not limited to, security attacks or fraud, we reserve the right to take reasonably appropriate measures, including, but not limited to, investigation and reporting, as well as notification to and cooperation with law enforcement authorities. In the event of a data breach, we will make reasonable efforts to notify

affected individuals if we believe that there is a reasonable risk of harm to the User as a result of the breach or if notice is otherwise required by law. When we do, we will post a notice on the Services, send you an email.

Where a cyber-security incident falls within the scope of reportable incidents under the directions issued by the Indian Computer Emergency Response Team (CERT-In), QFREEMART will take appropriate steps to comply with applicable cyber security reporting requirements under Indian law.

26. Changes and amendments

We reserve the right to modify this Policy or its terms related to the Services at any time at our discretion. When we do, we will revise the updated date at the bottom of this page. We may also provide notice to you in other ways at our discretion, such as through the contact information you have provided.

An updated version of this Policy will be effective immediately upon the posting of the revised Policy unless otherwise specified. Your continued use of the Services after the effective date of the revised Policy (or such other act specified at that time) will constitute your consent to those changes. However, we will not, without your consent, use your Personal Information in a manner materially different than what was stated at the time your Personal Information was collected

27. Acceptance of this policy

You acknowledge that you have read this Policy and agree to all its terms and conditions. By accessing and using the Services and submitting your information you agree to be bound by this Policy. If you do not agree to abide by the terms of this Policy, you are not authorized to access or use the Services.

This Agreement shall be governed by and construed in accordance with the laws of India. Subject to any applicable arbitration provisions, the courts located in Kolhapur, Maharashtra, India shall have exclusive jurisdiction over any disputes arising out of or relating to this Agreement.

28. Contacting us

In accordance with applicable Indian data protection and information technology regulations, QFREEMART designates a grievance officer responsible for addressing user concerns regarding the processing of personal data.

Users may submit privacy related complaints or requests to the above contact details. QFREEMART will respond within a reasonable timeframe in accordance with applicable data protection laws.

If you have any questions, concerns, or complaints regarding this Policy, the information we hold about you, or if you wish to exercise your rights, we encourage you to contact us using the details below:

contactus@qfreemart.in

We will attempt to resolve complaints and disputes and make every reasonable effort to honour your wish to exercise your rights as quickly as possible and in any event, within the timescales provided by applicable data protection laws

 - 4.2 Legal purposes
 - 4.3 Security purposes
 - 4.4 Statistics and research purposes
 - 4.5 Marketing and commercial purpose
 - 4.6 Non-marketing purposes
5. What are the recipients of your data and why are we communicating it?
6. Sharing your data with third parties
 - 6.1 Conditions for Sharing Your Data with Third Parties

1. General

If you visit or use one of QFREEMART web and/ or mobile application or you contact our support, we generally use your personal information to provide you with the specific service you are using. Please review our main privacy policy which governs the collection, use, and disclosure of personal information collected on our platform. The policy is designed to protect your privacy and describes our information collection and security measures. It also outlines your rights in relation to your personal information and the choices available to you. The policy applies to all individuals whose information we process and is subject to change from time to time without prior notice. If you have any questions, please feel free to contact us using the contact information provided in the policy.

QFREEMART operates a digital marketplace platform connecting customers with independent vendors and service providers. Vendors offering products or services through the platform may independently process certain personal data required to fulfill orders, coordinate deliveries, and provide customer support related to transactions. In such cases, those vendors act as independent data fiduciaries or controllers with respect to the personal data they process.

This Specific Privacy Notice is an integral part of the "Privacy Policy" and shall be read and interpreted in conjunction with it. This privacy notice is applicable to any natural person, which registers a Customer account on the App.

A "Customer account" is a user account created by an individual or company or vendor or an entity who wishes to purchase goods and/or services from vendors through the multivendor shopping mobile app. This account allows the user to browse and purchase products, track their orders, and manage their personal information and payment details.

2. What specific information we collect about you and why

QFREEMART holds the following data about you:

2.1 Information supplied directly by you

"Identity data": This refers to the information you provide when creating an account on the QFREEMART Platform, such as your username and email address.

"Profile data": This includes the information you add to your profile on the Platform in order to use QFREEMART's services, such as your alternate mobile phone number and delivery address. You can view and edit your personal data on your profile at any time.

"Orders data": This refers to order history and payment information you provide when processing your orders. Your card data may be processed by our electronic payment service providers, who will receive the data directly from you. QFREEMART will only have access to this information if required by a competent authority. We also offer the option to store your payment information or card details in a tokenized form, which allows for easier and more secure payments without storing your card details in our systems. You can delete this token at any time in your profile area.

"Additional data": This includes any other information you provide to QFREEMART for other purposes, such as your picture or billing address if you request to receive invoices from QFREEMART.

"Feedbacks data": This refers to any information you provide to resolve queries or complaints about the use of the platform, whether through the contact form, email, or phone.

"Claims data": This includes information about any parties involved in the provision of services through the Platform for the purpose of making insurance claims or carrying out other actions with the insurance companies contracted by QFREEMART.

"Evidence data": This refers to the transcription and recording of conversations for the processing of incidents, queries, or other consultations that may be made to guarantee and improve the quality of our services and for security reasons.

“Courier communications data”: This includes communications exchanged between you and the Couriers on the chat system provided on the Platform whenever it is necessary to address any incident or discussion between Users and Couriers, or to comply with any request made by authorities. QFREEMART will only access such communications when necessary for operational support, incident investigation, security purposes, or compliance with applicable legal obligations.

“Extra Information”: This refers to any other information you provide in your requests, comments, or questions.

Users are responsible for maintaining the confidentiality of their account credentials including passwords, authentication codes, and device access. QFREEMART shall not be responsible for unauthorized access resulting from the user’s failure to safeguard such credentials.

2.2 Information provided indirectly by users

“Usage data”: QFREEMART collects data every time you interact with the Platform.

“Device data”: QFREEMART stores data on the device and application you use to access the services, including your IP address, information about your device and internet connection, your clickstream data, and your account information and preferences.

“User Origin data”: If you arrive at the QFREEMART Platform through an external source, QFREEMART collects data on the source from which you arrived.

“Incident Management data”: If you contact QFREEMART through the Contact Form, QFREEMART Chat, or QFREEMART’s phone number, QFREEMART will collect and store the messages received to manage current or future incidents.

“Cookies data”: QFREEMART uses its own and third-party cookies for browsing facilitation and statistical purposes. Please refer to the Cookie Policy for more details.

“Geolocation Data”: QFREEMART collects data on your location if you authorize it.

2.3 Third parties data

QFREEMART collects personal data or information from external third parties only if you authorize such third parties to share that information with QFREEMART. For example, if you create an account through your Facebook or Google account, these platforms could disclose to us your personal data that can be found on your Facebook/Google profile. If you choose to send messages to us from social media networks, we will collect that information you provide to us for the purposes set out in this privacy policy.

“Social media data”: QFREEMART has no control over how social networks process your personal data. The privacy policies of these networks outline the information they collect and how it is processed. To understand their policies, please refer to the following links which are not exhaustive:

1. Twitter: <https://twitter.com/en/privacy>
2. Facebook: <https://www.facebook.com/privacy/explanation>
3. Whatsapp: <https://www.whatsapp.com/legal/updates/privacy-policy/>

Please note that the social media networks may change their policies from time to time.

3. Legal basis

Legal basis:

For definitions and further clarifications regarding the legal basis of processing , please check Main Privacy Policy.

In certain cases, operational records such as order history, delivery logs, payment transaction references, communication records, and incident investigation data may be retained for extended periods where necessary for fraud prevention, dispute resolution, regulatory compliance, tax obligations, or cooperation with law enforcement authorities.

4. Purpose

QFREEMART will process your personal data for the following purposes:

1. Contractual purposes.
2. Legal purposes.
3. Security purposes.
4. Statistics and research purposes.
5. Marketing and commercial purposes.
6. Non-marketing purposes.

4.1 Contractual purposes

QFREEMART reserves the right to process your personal data for the contractual purposes listed below, which are not intended to be exhaustive:

1. Account creation: You can create your own account on the Platform.
2. Order communication and updates: QFREEMART communicates your order to the partner selected by you and updates you on the status of your order.
3. Decision assistance: QFREEMART assists you in your decisions and use of the service, including the possibility to quickly reorder from the stores where you have ordered in the past or suggesting stores based on your past orders or "popularity" among new users. Additionally, QFREEMART could assist you in your decisions through automatically determined filters by the historical order you have placed in the past, providing in each case specific contents in the Platform tailored for you.
4. Service provision: QFREEMART provides the services you have requested and any additional features on the Platform.
5. Partner and courier location: QFREEMART locates the nearest partners and courier to the delivery point informed by you (which may involve using geolocation services, if you agreed to them when asked to by the Platform, as described above).
6. Payment processing: QFREEMART performs payment processing and collection on your behalf.
7. Receipt sending: QFREEMART sends you the receipt corresponding to your orders.
8. Customer service: QFREEMART provides you with customer service to manage any incident related to your orders and answer your questions or consultations.
9. Partner contact: QFREEMART can be contacted by its partners in case of any incident with your orders.
10. Reimbursements and refunds: QFREEMART processes reimbursements and refunds both via promo-codes or bank refunds.
11. Notification: QFREEMART notifies you concerning changes or updates to its services, terms and conditions, privacy policy, cookies policy, and any other corporate document that may affect you in a substantial way.

4.2 Legal purposes

QFREEMART reserves the right to process your personal data for the legal purposes listed below, which are not intended to be exhaustive:

1. Detecting and investigating fraud and possible crimes committed against our Platform and all users.
2. Complying with legal regulations that require us to keep your data for a defined period of time.
3. Managing and executing your requests to exercise the rights established in the Privacy Law and local regulations.
4. Filing, submitting, and defending legal actions against any entity of our Group.
5. In any of the cases mentioned above, QFREEMART may use any data obtained from you or arising from your activity through our Platform (e.g., conversations between you and the partner, you and the courier, you and our Platform using the chat system) to file and/or defend any claims and/or legal actions that may be necessary and to manage any incidents arising in connection with your orders

4.3 Security purposes

QFREEMART reserves the right to process your personal data for the security purposes listed below, which are not intended to be exhaustive:

1. Using device, location (including geolocation data, if you agreed to), profile, usage, and other data to prevent and detect malicious or unsafe activities (e.g., payment fraud, identity fraud, account hacking, phishing, incentive abuses). In particular, QFREEMART uses your device's IP address to detect fraudulent activity on your device and to keep the platform away from attackers who may try to access your account by impersonating you.
2. Monitoring all actions that could cause fraud or in the commission of a criminal offense related to the payment method employed by you. If any irregularities are detected, QFREEMART reserves the right to retain the data provided and share it with the competent authorities to carry out the relevant investigation.
3. Ensuring that you follow the legal requirements related to specific products you may order through the Platform (e.g., age limit for age legally restricted purchase of items).

4.4 Statistics and research purposes

QFREEMART reserves the right to process your personal data for the Statistics and research purposes listed below, which are not intended to be exhaustive:

1. Analysis: Trend analysis of purchase behavior and characteristics.
2. Usage: Analysis of how you use our Platform.
3. Service improvement: Enhancing the quality of the services by adding new or different features and services.

4.5 Marketing and commercial purposes

QFREEMART reserves the right to process your personal data for the marketing and commercial purposes listed below, which are not intended to be exhaustive:

1. Marketing activities: Carrying out marketing, communications, research, and development activities.
2. Analysis and research: Analyzing and researching how to improve our services both offline and on the Platform, by using the data provided by you (such as in focus groups, reviews, valuations of the services, satisfaction survey, feedback, or any kind, etc.).
3. Personalized offers: Providing you with personalized offers, promotions, discounts, suggestions, views, and options in App, by email, or by any other communication means, including the use of cookies or other technologies for advertising in third party websites or apps, according to our Cookie Policy and only if you have agreed to.
4. Promotional activities: Carrying out promotional activities for the delivery of samples or free products inside the order placed by you, which may be of your interest to promote QFREEMART's and our Partner's products or services.
5. Contests and competitions: Carrying out promotional activities such as contests, raffles, tenders, quizzes, competitions between users when they have subscribed and/or sent their data for such campaigns.

6. Custom audiences: Creating custom audiences with Facebook or other providers to reach out to you or other people with similar characteristics, who might be interested in using QFREEMART services; you can manage your privacy in your Facebook or other third party platform settings.
7. Commercial use: Using as commercial or marketing material published by you on your social networks profiles when QFREEMART has been expressly mentioned by you (i.e., via hashtag or @).

QFREEMART may personalize the marketing communications by using the User activity in our App (including your past orders) and the interaction with the App, online advertising, previous emails, promotions, etc. However, this personalization is not made only by automated means, nor have any legal effect or affect the User similarly.

QFREEMART may use Push services on the User's mobile device to provide marketing communications. If the User does not want to receive these marketing communications, he/she shall unsubscribe in the notifications center. Please note that disabling Push notifications will also prevent the User from receiving notifications about the status of any order.

4.6 Non-marketing purposes

QFREEMART processes your personal data for:

1. Receipt generation: Generating and providing you with receipts from each of your Orders placed through our App.
2. Incident notification: Informing you about any incident on the Platform or the operation of the services, including incidents related to your orders. This information can be sent by e-mail or SMS messages, and any other messaging application, that may be used by you and QFREEMART at any moment.
3. Policy updates: Informing you about any changes to our Terms and Conditions, privacy policy, cookies policy, services, and more generally to inform you about any relevant non-marketing communications.
4. Claims processing: Processing incidents and claims with insurance companies in the event you report the occurrence of any damages or unforeseen events that may be covered by QFREEMART's insurance policy.

We have set out below, a description of all the ways we plan to use your personal data, which of the legal bases we rely on to do so and for how long we intend or are obliged by Law to retain it .

Note that we may process your personal data for more than one lawful ground depending on the specific purpose for which we are using your data.

5. What are the recipients of your data and why are we communicating it?

QFREEMART ensures that all commercial partners, technicians, suppliers, or independent third parties are contractually bound to process shared information in accordance with QFREEMART's instructions, this Privacy Policy, and applicable data protection laws.

QFREEMART shares only the minimum personal data necessary for the completion of the transaction or service requested by the customer. Such data may include order details, delivery address, and necessary contact information required for order fulfillment or service delivery.

We will not disclose your personal data to any third party who does not act under our instructions, and we will not sell, rent, share, or otherwise reveal customers' personal information for commercial purposes in violation of the commitments made in this Privacy Policy.

When fulfilling an order, data may be shared with:

1. The courier who collects and delivers the product.
2. The establishment or venue responsible for selling the product, if you have requested the purchase of a product. If you provide your data directly to these providers, QFREEMART will not be responsible for their use of such data. Such vendors receive only the information necessary to process the order, coordinate delivery, and provide customer service related to the transaction.
3. Customer care services contracted by QFREEMART to notify you of any possible incidents or to inquire about negative feedback. Data will be used to manage any incidents that may occur during the provision of services.
4. Payment platforms and payment service providers so that the amount can be charged to your account.
5. Telecommunications service providers when used to send communications regarding orders or incidents related to orders.
6. Providers rendering satisfaction survey services on QFREEMART's behalf.

6. Sharing your data with third parties:

To continue providing the services offered through the Platform, QFREEMART may share certain personal data with:

Service providers

Service providers that send parcels, carry out orders, and/or resolve incidents with deliveries have access to your personal information only as necessary to carry out their functions. They must process this personal information as provided in this Privacy Policy and applicable data protection laws.

Specialized dispensaries such as but not limited to Pharmacies

QFREEMART may provide your name and phone number to pharmacists dispensing products to ensure the provision of pharmaceutical advice according to current applicable legislation.

Payment service providers

When you enter your card number on the App, it is stored directly by the payment platforms contracted by QFREEMART, which allows payment to be charged to your account. Payment service providers have been chosen based on their security measures and compliance with the security measures stipulated in payment service legislation, and they are PCI compliant under the Payment Card Industry Data Security Standard or PCI DSS. QFREEMART does not store this data.

Fraud control service providers

QFREEMART will share your data with fraud control service providers to assess the risk of transactions carried out.

Service providers for anonymization of some data

To prevent the misuse of your data by third-party service providers, your data may be anonymized so that it can be used solely for the provision of the service. For example, QFREEMART may assign your telephone numbers to third parties to anonymize them and provide them in a format to the providers used to carry out the services contracted by you.

Security companies and law enforcement forces and agencies

QFREEMART may disclose personal data on customers' accounts if such disclosure is necessary to comply with the law, enforce or apply the "Terms of Use," or protect QFREEMART's, its users', or third parties' rights, property, or safety. This includes the exchange of information with other companies and organizations and with law enforcement forces and agencies to protect against fraud and reduce credit risk.

Call center and incident management services

To provide customer service and call centers, measure your degree of satisfaction, and provide administrative support services, your data may be disclosed to companies located outside the country.

Telecommunications services

To provide telephone contact services, QFREEMART may contact telecommunications companies that provide secure lines and systems for the purpose of contacting you.

Third parties associated with QFREEMART for commercial communications

QFREEMART may transfer your personal data to third parties associated with QFREEMART, provided that you have given your express informed and unequivocal consent to such transfer of data and that you are aware of the purpose and recipient of such transfer.

Changes of ownership

If QFREEMART's ownership changes or the majority of its assets are acquired by a third party, your data will be transferred to the acquiring organizations to continue providing the services subject to data processing. As QFREEMART continues to grow, it may buy or sell business units, assets, shares, or legal entities, and data subjects' information may also be transferred. The new file controller will inform users of its identification data. QFREEMART will comply with its duty of information and inform users of the change of file controller if and when this happens. This processing will be carried out under the contract entered into with QFREEMART.

Insurance companies

QFREEMART may provide your data to insurers and insurance brokers it collaborates with for the management and processing of claims and losses arising from the activity carried out by QFREEMART and the parties that collaborate with it.

Identity verification and fraud prevention providers

Vendors who help us verify identity, background information, or who screen users in connection with sanctions, anti-money laundering, fraud or know-your-customer requirements. In some cases, these service providers may retain identity documents that are suspected to be fraudulent for the purpose of identifying fraud in the future;

Cloud storage providers

QFREEMART may share personal information with cloud storage providers to store and manage data related to its services securely. The cloud storage providers may have access to personal information only as necessary to provide their services to QFREEMART, and they must process this personal information as provided in QFREEMART's privacy policy and applicable data protection laws.

Research partners

QFREEMART may share personal information with research partners, including those performing surveys or research projects in partnership with QFREEMART or on QFREEMART's behalf;

Marketing providers

QFREEMART may share personal information with marketing partners and marketing platform providers, including social media advertising services, advertising networks, third-party data providers, and other service providers that help us understand you better as a user and measure advertising effectiveness;

Consultants, lawyers, accountants, and other professional service providers;

QFREEMART may share personal information with consultants, lawyers, accountants, and other professional service providers to obtain their professional services. These service providers may have access to personal information only as necessary to provide their services to QFREEMART, and they must process this personal information as provided in QFREEMART's privacy policy and applicable data protection laws. QFREEMART may also choose these service providers based on their expertise and experience in their respective fields.

Affiliates

QFREEMART may share personal information with its affiliates to provide its services and for business purposes. Affiliates are companies that are related to QFREEMART through common ownership or control. QFREEMART may share personal information with its affiliates to improve its services, to provide customer support, and for other business purposes. The affiliates may have access to personal information only as necessary to provide their services to QFREEMART, and they must process this personal information as provided in QFREEMART's privacy policy and applicable data protection laws.

6.1 Conditions for Sharing Your Data with Third Parties

QFREEMART may share your data with some of its top partners, but only under certain conditions:

1. QFREEMART will obtain your express consent via a consent checkbox that may appear:

- (a) at the first order made by you or
- (b) in each order made by you previously to proceed with the check-out when placing an order through the partner store.
- (c) during sign up by accepting terms & conditions & privacy policy

Once you give your consent, you can withdraw it at any time using the Contact Form

2. QFREEMART will have signed a Data Sharing Agreement with the partner and ensured that all legal, safety, and technical measures are met.

All third-party service providers receiving personal data from QFREEMART are contractually required to process such data only in accordance with QFREEMART's instructions, applicable data protection laws, and the security standards described in the Privacy Policy.

1. General

If you visit or use one of QFREEMART web and/ or mobile application or you contact our support, we generally use your personal information to provide you with the specific service you are using. Please review our main privacy policy which governs the collection, use, and disclosure of personal information collected on our platform. The policy is designed to protect your privacy and describes our information collection and security measures. It also outlines your rights in relation to your personal information and the choices available to you. The policy applies to all individuals whose information we process and is subject to change from time to time without prior notice. If you have any questions, please feel free to contact us using the contact information provided in the policy.

Vendors using the QFREEMART platform may receive limited personal data of customers that is necessary to fulfil orders, deliver goods or services, communicate with customers regarding transactions, or provide after-sales support.

Vendors shall only access personal data strictly necessary to fulfil a customer order or provide the requested service. Vendors must not attempt to access additional customer information beyond what is required for order fulfillment, delivery coordination, customer communication related to the transaction, or regulatory compliance.

In such cases, vendors act as independent data fiduciaries or data controllers with respect to the personal data they process for fulfilling customer orders. Vendors are responsible for ensuring that their processing of personal data complies with applicable data protection laws including the Digital Personal Data Protection Act, 2023 and other applicable regulations.

QFREEMART shall not be responsible for any misuse, unauthorized disclosure, or unlawful processing of personal data by vendors beyond the data shared strictly for the purpose of facilitating transactions through the platform.

This Privacy Notice is an integral part of the "Privacy Policy" and shall be read and interpreted in conjunction with it.

This privacy notice is applicable to any natural person who is legally designated as a representative and authorized to perform operations on the platform on behalf of a legal entity that registers an account on the App designated as "Vendor."

We have established this privacy notice to ensure that all representatives of legal entities understand their obligations and responsibilities when using the platform on behalf of a legal entity.

"Vendor" refers to a legal entity that registers an account on the App and offers goods or services for sale through the platform. A vendor may be an individual, partnership, corporation, or other legal entity that is authorized to conduct business in the jurisdiction where the platform operates. The vendor may designate one or more natural persons as its representatives to perform operations on the platform on its behalf. The vendor is responsible for complying with all applicable laws and regulations governing the sale of goods or services through the platform, including but not limited to data protection laws and regulations.

Vendors may externalize to a third party or nominate its employees as "couriers" to deliver goods or services to Users .

"Courier" refers to a natural person or legal entity that is nominated by a vendor to deliver goods or services to Users through the platform. A courier may be an individual, partnership, corporation, or other legal entity that is authorized to conduct business in the jurisdiction where the platform operates.

The Vendor is responsible for ensuring that all processing activities performed on its behalf by the Couriers are governed by a Data Processing Agreement (DPA) and recorded in a Registry of Processing Activities (ROPA). This is necessary to comply with

legal requirements and the provisions of our Privacy Policy. The DPA outlines the terms and conditions under which the Couriers may process personal information on behalf of the Vendor, while the ROPA documents the processing activities performed by the Couriers. The vendor must ensure that all couriers comply with the privacy policy and adhere to all applicable laws and regulations governing the collection, use, and storage of personal data. The vendor must also ensure that all couriers are aware of their obligations and responsibilities when handling personal information and that they receive appropriate training and guidance on data protection.

The Vendor agrees to use the Customer Data solely for fulfilling and complying with its obligations under this Privacy Policy. All customer personal data generated through the QFREEMART platform remains under the governance of QFREEMART's platform policies and applicable data protection laws. Vendors receive such data only for the purpose of fulfilling specific transactions requested by the customer. Vendors shall not claim ownership over customer data obtained through the platform. The Vendor also agrees not to use the Customer Data to enhance any file or list of the Vendor or any third party. The Vendor represents, warrants, and covenants that it will not sell, broker, or disclose any Customer Data to any third party, in whole or in part, for any purpose whatsoever. The Vendor may only copy or reproduce Customer Data for the purpose of fulfilling its obligations under the terms set forth in the Privacy Policy. The Vendor and any other persons who receive Customer Data from the Vendor must implement and comply with reasonable security measures to protect, handle, and secure the Customer Data. If the Vendor collects any Customer Data, it must adopt and comply with an appropriate privacy policy.

The restrictions on the Vendor's use of Customer Data do not apply to data from customers who were already customers of the Vendor prior to using QFREEMART, or data supplied by a customer directly to the Vendor who becomes a customer of the Vendor and explicitly opts in to receive communications from the Vendor. In all cases, the Vendor must handle and use such Customer Data in compliance with applicable laws and the Vendor's posted privacy policy.

2. Data processing purposes and the legal basis of the processing

QFREEMART holds the following data about you:

2.1 Information supplied directly by you

"Identity data": This refers to the information you provide when creating an account on the QFREEMART Platform, such as your username and email address.

"Profile data": This includes the information you add to your profile on the Platform in order to use QFREEMART's services, such as your alternate mobile phone number and delivery address. You can view and edit your personal data on your profile at any time.

"Orders data": This refers to order history and payment information you provide when processing your orders. Your card data may be processed by our electronic payment service providers, who will receive the data directly from you. QFREEMART will only have access to this information if required by a competent authority. We also offer the option to store your payment information or card details in a tokenized form, which allows for easier and more secure payments without storing your card details in our systems. You can delete this token at any time in your profile area.

"Additional data": This includes any other information you provide to QFREEMART for other purposes, such as your picture or billing address if you request to receive invoices from QFREEMART.

"Feedbacks data": This refers to any information you provide to resolve queries or complaints about the use of the platform, whether through the contact form, email, or phone.

"Claims data": This includes information about any parties involved in the provision of services through the Platform for the purpose of making insurance claims or carrying out other actions with the insurance companies contracted by QFREEMART.

"Evidence data": This refers to the transcription and recording of conversations for the processing of incidents, queries, or other consultations that may be made to guarantee and improve the quality of our services and for security reasons.

"Courier communications data": This includes communications exchanged between you and the Couriers on the chat system provided on the Platform whenever it is necessary to address any incident or discussion between Users and Couriers, or to comply with any request made by authorities. QFREEMART will never access the communications if it is not strictly necessary and will always ensure the privacy of its users and the confidentiality of all information exchanged on its platform.

"Extra Information": This refers to any other information you provide in your requests, comments, or questions.

2.2 Information provided indirectly by users

"Usage data": QFREEMART collects data every time you interact with the Platform.

"Device data": QFREEMART stores data on the device and application you use to access the services, including your IP address, information about your device and internet connection, your clickstream data, and your account information and preferences.

"User Origin data": If you arrive at the QFREEMART Platform through an external source, QFREEMART collects data on the source from which you arrived.

“Incident Management data”: If you contact QFREEMART through the Contact Form, QFREEMART Chat, or QFREEMART's phone number, QFREEMART will collect and store the messages received to manage current or future incidents.

“Cookies data”: QFREEMART uses its own and third-party cookies for browsing facilitation and statistical purposes. Please refer to the Cookie Policy for more details.

“Geolocation Data”: QFREEMART collects data on your location if you authorize it.

2.3 Third parties data

QFREEMART collects personal data or information from external third parties only if you authorize such third parties to share that information with QFREEMART. For example, if you create an account through your Facebook or Google account, these platforms could disclose to us your personal data that can be found on your Facebook/Google profile. If you choose to send messages to us from social media networks, we will collect that information you provide to us for the purposes set out in this privacy policy.

“Social media data”: QFREEMART has no control over how social networks process your personal data. The privacy policies of these networks outline the information they collect and how it is processed. To understand their policies, please refer to the following links which are not exhaustive:

1. Twitter: <https://twitter.com/en/privacy>
2. Facebook: <https://www.facebook.com/privacy/explanation>
3. Whatsapp: <https://www.whatsapp.com/legal/updates/privacy-policy/>

Please note that the social media networks may change their policies from time to time.

3. Legal basis

Legal basis:

For definitions and further clarifications regarding the legal basis of processing, please check Main Privacy Policy

4. Purpose

QFREEMART will process your the personal data for the following purposes:

1. Contractual purposes.
2. Legal purposes.
3. Security purposes.
4. Statistics and research purposes.
5. Marketing and commercial purposes.
6. Non-marketing purposes.

4.1 Contractual purposes

QFREEMART reserves the right to process your personal data for the contractual purposes listed below, which are not intended to be exhaustive:

1. Account creation: You can create your own account on the Platform.
2. Order communication and updates: QFREEMART communicates your order to the partner selected by you and updates you on the status of your order.
3. Decision assistance: QFREEMART assists you in your decisions and use of the service, including the possibility to quickly reorder from the stores where you have ordered in the past or suggesting stores based on your past orders or "popularity" among new users. Additionally, QFREEMART could assist you in your decisions through automatically determined filters by the historical order you have placed in the past, providing in each case specific contents in the Platform tailored for you.
4. Service provision: QFREEMART provides the services you have requested and any additional features on the Platform.
5. Partner and courier location: QFREEMART locates the nearest partners and courier to the delivery point informed by you (which may involve using geolocation services, if you agreed to them when asked to by the Platform, as described above).
6. Payment processing: QFREEMART performs payment processing and collection on your behalf.
7. Receipt sending: QFREEMART sends you the receipt corresponding to your orders.
8. Customer service: QFREEMART provides you with customer service to manage any incident related to your orders and answer your questions or consultations.
9. Partner contact: QFREEMART can be contacted by its partners in case of any incident with your orders.
10. Reimbursements and refunds: QFREEMART processes reimbursements and refunds both via promo-codes or bank refunds.
11. Notification: QFREEMART notifies you concerning changes or updates to its services, terms and conditions, privacy policy, cookies policy, and any other corporate document that may affect you in a substantial way.

4.2 Legal purposes

QFREEMART reserves the right to process your personal data for the legal purposes listed below, which are not intended to be exhaustive:

1. Detecting and investigating fraud and possible crimes committed against our Platform and all users.
2. Complying with legal regulations that require us to keep your data for a defined period of time.

3. Managing and executing your requests to exercise the rights established in the Privacy Law and local regulations.
4. Filing, submitting, and defending legal actions against any entity of our Group.
5. In any of the cases mentioned above, QFREEMART may use any data obtained from you or arising from your activity through our Platform (e.g., conversations between you and the partner, you and the courier, you and our Platform using the chat system) to file and/or defend any claims and/or legal actions that may be necessary and to manage any incidents arising in connection with your orders

4.3 Security purposes

QFREEMART reserves the right to process your personal data for the security purposes listed below, which are not intended to be exhaustive:

1. Using device, location (including geolocation data, if you agreed to), profile, usage, and other data to prevent and detect malicious or unsafe activities (e.g., payment fraud, identity fraud, account hacking, phishing, incentive abuses). In particular, QFREEMART uses your device's IP address to detect fraudulent activity on your device and to keep the platform away from attackers who may try to access your account by impersonating you.
2. Monitoring all actions that could cause fraud or in the commission of a criminal offense related to the payment method employed by you. If any irregularities are detected, QFREEMART reserves the right to retain the data provided and share it with the competent authorities to carry out the relevant investigation.
3. Ensuring that you follow the legal requirements related to specific products you may order through the Platform (e.g., age limit for age legally restricted purchase of items).

4.4 Statistics and research purposes

QFREEMART reserves the right to process your personal data for the Statistics and research purposes listed below, which are not intended to be exhaustive:

1. Analysis: Trend analysis of purchase behavior and characteristics.
2. Usage: Analysis of how you use our Platform.
3. Service improvement: Enhancing the quality of the services by adding new or different features and services.

4.5 Marketing and commercial purposes

QFREEMART reserves the right to process your personal data for the marketing and commercial purposes listed below, which are not intended to be exhaustive:

1. Marketing activities: Carrying out marketing, communications, research, and development activities.
2. Analysis and research: Analyzing and researching how to improve our services both offline and on the Platform, by using the data provided by you (such as in focus groups, reviews, valuations of the services, satisfaction survey, feedback, or any kind, etc.).
3. Personalized offers: Providing you with personalized offers, promotions, discounts, suggestions, views, and options in App, by email, or by any other communication means, including the use of cookies or other technologies for advertising in third party websites or apps, according to our Cookie Policy and only if you have agreed to.
4. Promotional activities: Carrying out promotional activities for the delivery of samples or free products inside the order placed by you, which may be of your interest to promote QFREEMART's and our Partner's products or services.
5. Contests and competitions: Carrying out promotional activities such as contests, raffles, tenders, quizzes, competitions between users when they have subscribed and/or sent their data for such campaigns.
6. Custom audiences: Creating custom audiences with Facebook or other providers to reach out to you or other people with similar characteristics, who might be interested in using QFREEMART services; you can manage your privacy in your Facebook or other third party platform settings.
7. Commercial use: Using as commercial or marketing material published by you on your social networks profiles when QFREEMART has been expressly mentioned by you (i.e., via hashtag or @).

QFREEMART may personalize the marketing communications by using the User activity in our App (including your past orders) and the interaction with the App, online advertising, previous emails, promotions, etc. However, this personalization is not made only by automated means, nor have any legal effect or affect the User similarly.

QFREEMART may use Push services on the User's mobile device to provide marketing communications. If the User does not want to receive these marketing communications, he/she shall unsubscribe in the notifications center. Please note that disabling Push notifications will also prevent the User from receiving notifications about the status of any order.

4.6 Non-marketing purposes

QFREEMART processes your personal data for:

1. Receipt generation: Generating and providing you with receipts from each of your Orders placed through our App.
2. Incident notification: Informing you about any incident on the Platform or the operation of the services, including incidents related to your orders. This information can be sent by e-mail or SMS messages, and any other messaging application, that may be used by you and QFREEMART at any moment.
3. Policy updates: Informing you about any changes to our Terms and Conditions, privacy policy, cookies policy, services, and more generally to inform you about any relevant non-marketing communications.
4. Claims processing: Processing incidents and claims with insurance companies in the event you report the occurrence of any damages or unforeseen events that may be covered by QFREEMART's insurance policy.

We have set out below, a description of all the ways we plan to use your personal data, which of the legal bases we rely on to do so and for how long we intend or are obliged by Law to retain it .

Note that we may process your personal data for more than one lawful ground depending on the specific purpose for which we are using your data.

4.7 Prohibited Uses of Personal Data

Vendors must not use personal data obtained through the QFREEMART platform for purposes unrelated to the transaction requested by the user. In particular, vendors must not:

- sell or distribute customer personal data
- use customer contact information for unsolicited marketing
- share personal data with unauthorized third parties
- retain personal data beyond the necessary operational period

Any misuse of personal data may result in suspension or termination of the vendor's access to the platform and may lead to legal action where applicable.

5. What are the recipients of your data and why are we communicating it?

QFREEMART ensures that all commercial partners, technicians, suppliers, or independent third parties are contractually bound to process shared information in accordance with QFREEMART's instructions, this Privacy Policy, and applicable data protection laws.

We will not disclose your personal data to any third party who does not act under our instructions, and we will not sell, rent, share, or otherwise reveal customers' personal information for commercial purposes in violation of the commitments made in this Privacy Policy.

When fulfilling an order, data may be shared with:

1. The courier who collects and delivers the product.
2. The establishment or venue responsible for selling the product, if you have requested the purchase of a product. If you provide your data directly to these providers, QFREEMART will not be responsible for their use of such data.
3. Customer care services contracted by QFREEMART to notify you of any possible incidents or to inquire about negative feedback. Data will be used to manage any incidents that may occur during the provision of services.
4. Payment platforms and payment service providers so that the amount can be charged to your account.
5. Telecommunications service providers when used to send communications regarding orders or incidents related to orders.
6. Providers rendering satisfaction survey services on QFREEMART's behalf.

6. Sharing your data with third parties:

To continue providing the services offered through the Platform, QFREEMART may share certain personal data with:

Service providers

Service providers that send parcels, carry out orders, and/or resolve incidents with deliveries have access to your personal information only as necessary to carry out their functions. They must process this personal information as provided in this Privacy Policy and applicable data protection laws.

Specialized dispensaries such as but not limited to Pharmacies

QFREEMART may provide your name and phone number to pharmacists dispensing products to ensure the provision of pharmaceutical advice according to current applicable legislation.

Payment service providers

When you enter your card number on the App, it is stored directly by the payment platforms contracted by QFREEMART, which allows payment to be charged to your account. Payment service providers have been chosen based on their security measures and compliance with the security measures stipulated in payment service legislation, and they are PCI compliant under the Payment Card Industry Data Security Standard or PCI DSS. QFREEMART does not store this data.

Fraud control service providers

QFREEMART will share your data with fraud control service providers to assess the risk of transactions carried out.

Service providers for anonymization of some data

To prevent the misuse of your data by third-party service providers, your data may be anonymized so that it can be used solely for the provision of the service. For example, QFREEMART may assign your telephone numbers to third parties to anonymize them and provide them in a format to the providers used to carry out the services contracted by you.

Security companies and law enforcement forces and agencies

QFREEMART may disclose personal data on customers' accounts if such disclosure is necessary to comply with the law, enforce or apply the "Terms of Use," or protect QFREEMART's, its users', or third parties' rights, property, or safety. This includes the exchange of information with other companies and organizations and with law enforcement forces and agencies to protect against fraud and reduce credit risk.

Call center and incident management services

To provide customer service and call centers, measure your degree of satisfaction, and provide administrative support services, your data may be disclosed to companies located outside the country.

Telecommunications services

To provide telephone contact services, QFREEMART may contact telecommunications companies that provide secure lines and systems for the purpose of contacting you.

Third parties associated with QFREEMART for commercial communications

QFREEMART may transfer your personal data to third parties associated with QFREEMART, provided that you have given your express informed and unequivocal consent to such transfer of data and that you are aware of the purpose and recipient of such transfer.

Changes of ownership

If QFREEMART's ownership changes or the majority of its assets are acquired by a third party, your data will be transferred to the acquiring organizations to continue providing the services subject to data processing. As QFREEMART continues to grow, it may buy or sell business units, assets, shares, or legal entities, and data subjects' information may also be transferred. The new file controller will inform users of its identification data. QFREEMART will comply with its duty of information and inform users of the change of file controller if and when this happens. This processing will be carried out under the contract entered into with QFREEMART.

Insurance companies

QFREEMART may provide your data to insurers and insurance brokers it collaborates with for the management and processing of claims and losses arising from the activity carried out by QFREEMART and the parties that collaborate with it.

Identity verification and fraud prevention provides

Vendors who help us verify identity, background information, or who screen users in connection with sanctions, anti-money laundering, fraud or know-your-customer requirements. In some cases, these service providers may retain identity documents that are suspected to be fraudulent for the purpose of identifying fraud in the future;

Cloud storage providers

QFREEMART may share personal information with cloud storage providers to store and manage data related to its services securely. The cloud storage providers may have access to personal information only as necessary to provide their services to QFREEMART, and they must process this personal information as provided in QFREEMART's privacy policy and applicable data protection laws.

Research partners

QFREEMART may share personal information with research partners, including those performing surveys or research projects in partnership with QFREEMART or on QFREEMART's behalf;

Marketing providers

QFREEMART may share personal information with marketing partners and marketing platform providers, including social media advertising services, advertising networks, third-party data providers, and other service providers that help us understand you better as a user and measure advertising effectiveness;

Consultants, lawyers, accountants, and other professional service providers;

QFREEMART may share personal information with consultants, lawyers, accountants, and other professional service providers to obtain their professional services. These service providers may have access to personal information only as necessary to provide their services to QFREEMART, and they must process this personal information as provided in QFREEMART's privacy policy and applicable data protection laws. QFREEMART may also choose these service providers based on their expertise and experience in their respective fields.

Affiliates

QFREEMART may share personal information with its affiliates to provide its services and for business purposes. Affiliates are companies that are related to QFREEMART through common ownership or control. QFREEMART may share personal information with its affiliates to improve its services, to provide customer support, and for other business purposes. The affiliates may have access to personal information only as necessary to provide their services to QFREEMART, and they must process this personal information as provided in QFREEMART's privacy policy and applicable data protection laws.

6.1 Conditions for Sharing Your Data with Third Parties

QFREEMART may share your data with some of its top partners, but only under certain conditions:

1. QFREEMART will obtain your express consent via a consent checkbox that may appear:

- (a) at the first order made by you or
- (b) in each order made by you previously to proceed with the check-out when placing an order through the partner store.
- (c) during sign up by accepting terms & conditions & privacy policy

Once you give your consent, you can withdraw it at any time using the Contact Form

2. QFREEMART will have signed a Data Sharing Agreement with the partner and ensured that all legal, safety, and technical measures are met.

6.2 Vendor Data Processing Agreement

All vendors processing personal data through the QFREEMART platform are required to comply with the Vendor Data Processing Agreement (DPA) and applicable privacy policies established by QFREEMART.

The DPA establishes obligations relating to:

- lawful processing of customer personal data
- protection of customer privacy
- security safeguards
- restrictions on unauthorized data use
- incident reporting obligations
- compliance with applicable privacy regulations

6.3 Registry of Processing Activities (ROPA)

Where vendors process personal data of customers, delivery agents, or other individuals through the platform, vendors are required to maintain appropriate records of such processing activities.

These records may include:

- categories of personal data processed
- purpose of processing
- retention periods
- recipients of data
- security safeguards implemented

Maintaining such records assists vendors in demonstrating compliance with applicable data protection regulations and enables transparency in data processing activities.

Vendors must ensure that any personnel, contractors, or delivery agents processing personal data on their behalf are bound by equivalent confidentiality and data protection obligations.

Vendors must implement appropriate technical and organizational security measures to protect personal data obtained through the platform. Such measures may include secure storage systems, restricted access controls, password protection, encryption where appropriate, and safeguards against unauthorized disclosure or misuse of personal data.

7. Processing of personal data related to Couriers

This section applies to Couriers, individuals who provide delivery of goods from a retailer registered on QFREEMART to a user who is using the service and has requested through the app or website to be delivered specific goods and / or services.

Couriers or delivery agents operating through the platform may be recruited, contracted, or managed by vendors or service providers. Vendors are responsible for verifying the identity, qualifications, and eligibility of couriers engaged by them.

Vendors must ensure that personal data of couriers is processed in accordance with applicable data protection laws and that such data is used only for operational purposes such as delivery coordination, order fulfillment, safety compliance, and regulatory obligations.

7.1 QFREEMART will process the personal data of Couriers for the following purposes:

1. Legal purposes.
2. Contractual purposes.
3. Security purposes.
4. Statistics and research purposes.

Legal purposes

QFREEMART reserves the right to process your personal data for the legal purposes listed below, which are not intended to be exhaustive:

1. Detecting and investigating fraud and potential crimes committed against our platform and its users.
2. Complying with legal regulations that require us to retain your data for a specific period of time.
3. Managing and fulfilling your requests to exercise your rights under the GDPR and local regulations.
4. Filing, submitting, and defending legal actions against any entity within our group.
5. Managing and fulfilling your claims related to orders, delivery issues, and other general incidents arising from the use of the platform.

Contractual purposes

QFREEMART reserves the right to process your personal data for the contractual purposes listed below, which are not intended to be exhaustive:

1. Enabling you to access and communicate with the QFREEMART platform to provide services through it.
2. Providing informative sessions to you before the start of services (focus groups) and complying with the services offered by providers through the technological platform, as well as obligations arising from the contractual relationship.
3. Studying your use of the platform and conducting focus groups with you to understand your opinions and feedback about the services provided.
4. Providing you with the necessary equipment and materials to provide services, if requested.
5. Activating insurance in case of an incident during the delivery of an order.
6. Assigning orders to you and showing customers your position while delivering their orders.
7. Assisting you during the performance of services by contacting customer centers.
8. Notifying you of changes or updates to our services, terms and conditions, privacy policy, cookies policy, and any other corporate document that may substantially affect you.

Security purposes

QFREEMART reserves the right to process your personal data for the security purposes listed below, which are not intended to be exhaustive:

1. Using device, location, profile, usage, and other data to prevent and detect improper payments and money laundering, especially when paying by cash.
2. Collaborating with public authorities when requested to provide information useful to their investigations (e.g., anti-drug, anti-fraud, and anti-terrorism projects).
3. Defending QFREEMART's interests in case of a conflict between parties related to the interpretation or execution of the contract.
4. Complying with compensation, accounting, tax, and economic obligations.

Statistics and research purposes

QFREEMART reserves the right to process your personal data for the statistics and research purposes listed below, which are not intended to be exhaustive:

1. Conducting statistical and financial calculations based on aggregate and non-identifiable data.
2. Sending voluntary and anonymous questionnaires, surveys, competitions, and communications of your interest to assess the quality of the relationship and gather any opinions you may have.

7.2 What kind of data do we hold about couriers and how is it collected?

From a data privacy perspective, QFREEMART requests that Vendors hold the following data about couriers, which are not intended to be exhaustive:

1. Name and surnames: Pursuit of the contractual relationship.
2. Identity Card / Passport No. / Foreign resident's card: Pursuit of the contractual relationship, billing, and legal compliance.
3. Bank and billing information: Information for billing purposes, current account or credit card numbers, if necessary to fulfill contractual obligations or manage purchases or services.
4. Photo: Road safety, account fraud prevention, and public safety.
5. Image: Video surveillance and access control when entering one of the company's sites.
6. Voice (without biometrics) from customer service calls: Pursuit of the contractual relationship and legal compliance.
7. Signature: Pursuit of the contractual relationship.
8. Date of birth: Legal compliance.
9. Residence details (resident/non-resident): Legal compliance.
10. Accident insurance processing details: Accident insurance management.
11. Driving license: Road safety.
12. Own vehicle: Pursuit of the contractual relationship.
13. Vehicle insurance: Pursuit of the contractual relationship.
14. Geolocation: Management of the service provider's location during the provision of services for road safety reasons and to comply with tax and accounting obligations.
15. Phone number and email (contact data): Pursuit of the contractual relationship and ability to communicate with the courier by sending communications through different channels such as SMS, email, Whatsapp messages, etc.
16. Internet connection: Pursuit of the contractual relationship.
17. Conversation information: Transcription and recording of conversations held between couriers and QFREEMART to guarantee and improve the quality of services, process incidents, and for security reasons.

7.3 What are the recipients of data related to Couriers and why are we communicating it?

As per QFREEMART's data privacy policy, it is hereby stated that the disclosure of couriers' personal data to third parties shall only be made when necessary for the establishment, performance, and termination of the contractual relationship with QFREEMART. The third-party recipients of the data, designated as data processors, are bound by legal obligations to ensure the protection and confidentiality of the couriers' personal data. The third-party recipients of the Data, designated as Data Processors, might include:

1. Google, in connection with the use of Google Maps (see Google's privacy policy for information on their collection and use of data).
2. Vendors who help us verify identity, background information, or who screen users in connection with sanctions, anti-money laundering, fraud or know-your-customer requirements. In some cases, these service providers may retain identity documents that are suspected to be fraudulent for the purpose of identifying fraud in the future;
3. Cloud storage providers;
4. Research partners, including those performing surveys or research projects in partnership with QFREEMART or on QFREEMART's behalf;
5. Vendors that assist QFREEMART to enhance the safety and security of our Services;
18. Advisers and consultants for the pursuit of accounting, labour, tax, insurance, legal and technical activities
19. Government bodies (tax authority, social security system, etc.)
20. State security forces, courts, mediation and arbitration bodies
21. Governments for regulatory matters.

To ensure that couriers can carry out their activity during the performance of the contractual relationship, the data might be disclosed:

1. to those establishments with which QFREEMART has a commercial T&Cs,

- 22. those users who have placed an order which you have agreed to carry out,
- 23. external service providers that provide commercial offers with benefits and/or discounts for you.

QFREEMART may transfer this data to group companies or third parties responsible for the filing and management of computer data, both within and outside the India, solely for purposes related to the management of the contractual relationship between the parties. Such transfer shall be fully in accordance with the applicable data protection legislation. QFREEMART assures that it has taken the necessary measures to ensure that the disclosure of couriers' data is carried out in compliance with the aforementioned legislation.

7.4 How long will we keep data related to couriers?

QFREEMART will retain courier-related data for the duration of the contractual relationship and, after its termination, for the period established by law for filing or defending appropriate legal actions. This period is a maximum of fifteen (15) years to comply with QFREEMART's legal obligations, which include assisting security forces in investigating and prosecuting crimes for the higher interest of public safety, as well as defending itself or taking action in relation to criminal, tax, and social security matters. However, the said period may be shorter depending on the legal provision applicable to each purpose of data processing.

In certain circumstances, courier identification data, delivery logs, and related operational records may be retained for extended periods where necessary for fraud prevention, regulatory compliance, or cooperation with law enforcement authorities. Such records may be retained for periods of up to fifteen (15) years where required for legal defence or investigative purposes.

Company Address: 2/164, Main Road, Siva Kalyaan Complex Parameswarapuram, Radhapuram Taluka ,
Tirunelveli, Tamil Nadu, India - 627111

(the "Company")

and the vendor, merchant, or service provider registering on the QFREEMART Seller Application and accepting this Agreement electronically through the platform ("Data Processor").
(the "Data Processor") (together as the "Parties")

WHEREAS

(A) The Company acts as a Data Controller.

(B) The Company wishes to subcontract certain Services, which imply the processing of personal data, to the Data Processor.

(C) The Parties seek to implement a data processing agreement that complies with applicable data protection laws in India including the Digital Personal Data Protection Act, 2023, the Information Technology Act, 2000 and the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011.

(D) The Parties wish to lay down their rights and obligations.

IT IS AGREED AS FOLLOWS:

1. Definitions and Interpretation

Unless otherwise defined herein, capitalized terms and expressions used in this Agreement shall have the following meaning:

"Agreement" means this Data Processing Agreement and all Schedules;

"Company Personal Data" means any Personal Data Processed by a Contracted Processor on behalf of Company pursuant to or in connection with the Principal Agreement;

"Contracted Processor" means a Sub-processor;

"Territory" means the territory under the jurisdiction of the India;

"Data Protection Laws" means the Digital Personal Data Protection Act, 2023, the Information Technology Act, 2000, the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011, and any other applicable data protection or privacy laws in India.

"Data Transfer" means a transfer of Company Personal Data from the Company to a Contracted Processor; or an onward transfer of Company Personal Data from a Contracted Processor to a Subcontracted Processor, or between two establishments of a Contracted Processor, in each case, where such transfer would be prohibited by Data Protection Laws (or by the terms of data transfer agreements put in place to address the data transfer restrictions of Data Protection Laws);

"Services" means all the services the Company provides including those which are subcontracted by the Company to third party service providers.

"Sub-processor" means any person appointed by or on behalf of Processor to process Personal Data on behalf of the Company in connection with the Agreement.

For the purposes of interpretation under Indian law, the term "Controller" may be read as equivalent to "Data Fiduciary" and "Data Subject" may be read as equivalent to "Data Principal" as defined under the Digital Personal Data Protection Act, 2023.

The terms "Controller", "Data Subject", "Personal Data", "Personal Data Breach", and "Processing" shall be interpreted in accordance with applicable data protection laws in India including the Digital Personal Data Protection Act, 2023 and related regulations.

2. Processing of Company Personal Data

Processor shall:

- Comply with all applicable Data Protection Laws in the Processing of Company Personal Data; and
- Not Process Company Personal Data other than on the relevant Company's documented instructions.
- The Company instructs Processor to process Company Personal Data.

Processor shall not:

- sell or distribute personal data obtained through the platform
- use customer data for unsolicited marketing
- disclose personal data to unauthorized third parties
- retain personal data beyond operational necessity

Processor shall process Company Personal Data solely for the purpose of fulfilling orders, coordinating deliveries, providing customer support related to transactions, or complying with applicable legal obligations.

Processor shall maintain a documented Registry of Processing Activities (ROPA) relating to the processing of Company Personal Data where required under applicable data protection laws. Such records shall include categories of personal data processed, purpose of processing, categories of data subjects, retention periods, and security safeguards implemented.

3. Processor Personnel

Processor shall take reasonable steps to ensure the reliability of any employee, agent or contractor of any Contracted Processor who may have access to the Company Personal Data, ensuring in each case that access is strictly limited to those individuals who need to know / access the relevant Company Personal Data, as strictly necessary for the purposes of the Principal Agreement, and to comply with Applicable Laws in the context of that individual's duties to the Contracted Processor, ensuring that all such individuals are subject to confidentiality undertakings or professional or statutory obligations of confidentiality. Processor shall ensure that any delivery agents, couriers, subcontractors, or service personnel engaged by the Processor who may have access to Company Personal Data comply with the confidentiality and data protection obligations set out in this Agreement.

4. Security

Taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of Processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, Processor shall in relation to the Company Personal Data implement appropriate technical and organizational measures to ensure a level of security appropriate to that risk, including, as appropriate, the measures required under applicable data protection and cyber security regulations including the Digital Personal Data Protection Act, 2023 and the Information Technology Act, 2000.

Such security measures may include, where appropriate:

- encryption of sensitive data
- secure authentication mechanisms
- access control systems restricting data access
- protection against unauthorized disclosure or loss of personal data
- regular monitoring of systems processing personal data

In assessing the appropriate level of security, Processor shall take account in particular of the risks that are presented by Processing, in particular from a Personal Data Breach.

5. Sub-processing

Processor shall not appoint (or disclose any Company Personal Data to) any Sub-processor unless required or authorized by the Company.

Where sub-processors are used, the Processor shall ensure that such sub-processors are bound by data protection obligations equivalent to those set out in this Agreement.

6. Data Subject Rights

Taking into account the nature of the Processing, Processor shall assist the Company by implementing appropriate technical and organizational measures, insofar as this is possible, for the fulfilment of the Company obligations, as reasonably understood by Company, to respond to requests to exercise Data Subject rights under the Data Protection Laws.

Processor shall:

- Promptly notify Company if it receives a request from a Data Subject under any Data Protection Law in respect of Company Personal Data; and
- Ensure that it does not respond to that request except on the documented instructions of Company or as required by Applicable Laws to which the Processor is subject, in which case Processor shall to the extent permitted by Applicable Laws inform Company of that legal requirement before the Contracted Processor responds to the request.

7. Personal Data Breach

Processor shall notify Company without undue delay upon Processor becoming aware of a Personal Data Breach affecting Company Personal Data, providing Company with sufficient information to allow the Company to meet any obligations to report or inform Data Subjects of the Personal Data Breach under the Data Protection Laws.

The Processor shall notify the Company of any Personal Data Breach affecting Company Personal Data as soon as reasonably possible and in any event within twenty-four (24) hours after becoming aware of such breach.

Processor shall co-operate with the Company and take reasonable commercial steps as are directed by Company to assist in the investigation, mitigation and remediation of each such Personal Data Breach.

Where a cybersecurity incident falls within the reporting requirements of the Indian Computer Emergency Response Team (CERT-In), the Processor shall cooperate with the Company to ensure compliance with applicable incident reporting obligations under Indian cybersecurity regulations.

8. Data Protection Impact Assessment and Prior Consultation

Processor shall provide reasonable assistance to the Company with any data protection impact assessments, and prior consultations with Supervising Authorities or other competent data privacy authorities, which Company reasonably considers to be required by article 35 or 36 of the GDPR or equivalent provisions of any other Data Protection Law, in each case solely in relation to Processing of Company Personal Data by, and taking into account the nature of the Processing and information available to, the Contracted Processors.

9. Deletion or return of Company Personal Data

Subject to this section Processor shall promptly and in any event within 10 business days of the date of cessation of any Services involving the Processing of Company Personal Data (the "Cessation Date"), delete and procure the deletion of all copies of those Company Personal Data.

Processor shall provide written certification to Company that it has fully complied with this section 9 within 10 business days of the Cessation Date.

Notwithstanding the above, Processor may retain limited records where necessary to comply with applicable legal obligations, regulatory requirements, accounting obligations, or dispute resolution processes.

10. Audit rights

Processor shall make available to the Company on request all information necessary to demonstrate compliance with this Agreement, and shall allow for and contribute to audits, including inspections, by the Company or an auditor mandated by the Company in relation to the Processing of the Company Personal Data by the Contracted Processors.

Information and audit rights of the Company only arise under section 10.1 to the extent that the Agreement does not otherwise give them information and audit rights meeting the relevant requirements of Data Protection Law.

11. Data Transfer

The Processor may not transfer or authorize the transfer of Data to countries outside the Territory without the prior written consent of the Company. If personal data processed under this Agreement is transferred from a country within the Territory to a country outside the Territory, the Parties shall ensure that the personal data are adequately protected. To achieve this, the Parties shall, unless agreed otherwise, rely on approved standard contractual clauses for the transfer of personal data.

12. General Terms

12.1 Confidentiality

Each Party must keep this Agreement and information it receives about the other Party and its business in connection with this Agreement ("Confidential Information") confidential and must not use or disclose that Confidential Information without the prior written consent of the other Party except to the extent that:

- disclosure is required by law;
- the relevant information is already in the public domain.

12.2 Notices

All notices and communications given under this Agreement must be in writing and will be delivered personally, sent by post or sent by email to the address or email address set out in the heading of this Agreement at such other address as notified from time to time by the Parties changing address.

12.3 Governing Law and Jurisdiction

This Agreement shall be governed by and construed in accordance with the laws of India. Subject to any applicable arbitration provisions, the courts located in Kolhapur, Maharashtra, India shall have exclusive jurisdiction over any disputes arising out of or relating to this Agreement.

13 Electronic Acceptance

This Agreement may be accepted electronically by vendors through the QFREEMART Seller Application or any associated platform interface. Electronic acceptance of this Agreement shall have the same legal effect as a physical signature and shall constitute binding acceptance of the terms by the vendor.

1. General

This Privacy Notice is an integral part of the "Privacy Policy" and shall be read and interpreted in conjunction with it.

QFREEMART operates a digital marketplace platform that connects customers with independent vendors and service providers. Vendors fulfilling orders through the platform may receive limited customer information necessary to process orders, coordinate deliveries, and provide services requested by the user.

This privacy notice is applicable to all users of the QFREEMART Android-based application, including visitors to the application's website and users of the mobile application. By using the QFREEMART application, you acknowledge that you have been informed about how your personal data may be processed in accordance with this Privacy Notice and the main Privacy Policy.

This privacy notice outlines the types of personal data that the QFREEMART application collects from users, including contact information, device information, and usage data. It also explains how the collected data is used, such as for improving the application's functionality and user experience, and how it is shared with third-party service providers.

The QFREEMART application is committed to protecting user privacy and ensuring that personal data is processed in accordance with applicable data protection laws and regulations. The application takes measures to protect user data, such as encryption and secure storage, and handles security breaches and data loss in accordance with established protocols.

This privacy notice complies with the requirements of the Google Play Store, including providing a clear and concise summary of the data collected and used by the application, as well as any third-party advertising or analytics services used. It also includes a link to the application's full privacy policy for more detailed information.

By using the QFREEMART application, you acknowledge that you have been informed about how your personal data may be processed in accordance with this Privacy Notice and the main Privacy Policy. The QFREEMART application reserves the right to modify or amend this privacy notice at any time without prior notice, and any such modifications or amendments shall be effective immediately upon posting. Continued use of the QFREEMART application after any such modifications or amendments constitutes acceptance of the updated privacy notice.

NOTICE: The QFREEMART Android application is distributed through the Google Play Store. When downloading or installing the application through Google Play, certain data processing may be carried out by Google in accordance with Google's own privacy policies. Users are encouraged to review Google's Privacy Policy to understand how Google processes personal data in connection with its services.

For further details please access: <https://policies.google.com/privacy>

2. App's data safety information

Before you install the app from Google Play, you can check the app's Data safety section. We use the Data safety section to share information about how their app handles your data. This way, you can make more informed decisions about what apps you use.

The Data safety section of an app listing lets us describe how our app collects, shares, and handles different types of data. We explain our practices for:

Data collection: We describe the types of user data our app collects, how we use this data, and whether the collection of this data is optional. Data is generally considered "collected" when we use our app to retrieve data off your device. In some cases, we do not need to disclose data as "collected" even if the data technically leaves your device (for example, when the data is only processed ephemerally).

Data sharing: We describe if our app shares your data with third parties and what types of data are shared. Data is generally considered "shared" when it is accessed by the app and transferred to a third party. In some cases, we do not need to disclose data as "shared" even if it's technically transferred to another party (for example, when you give your consent to transfer the data after the app explains how it will use the data, or when the data is shared with a developer's service provider).

We use Google Play's Data safety section to describe the sum of our app's data collection and sharing across all versions of the app distributed on Google Play. Our app's data privacy and security practices may vary based on your use, region, and age. We

may use the "About this app" section of our app's Google Play listing, the privacy policy, or other documentation to share app version-specific information with our users.

To find an app's data safety information:

1. Open Google Play .
2. Browse or use the search bar to find an app.
3. Tap an app.
4. Under "Data safety," you'll find a summary of the app's data safety practices.
5. For more detail, tap See details.

Note: The info in the Data safety section only applies to apps distributed on Google Play. You'll only find the Data safety section on Android 5 and up.

3. Data collection

We do not need to disclose data accessed by our app as "collected" in the Data safety section if:

1. Our app accesses the data only on your device and it is not sent off your device. For example, if you provide our app permission to access your location, but it only uses that data to provide app functionality on your device and does not send it to our server, we do not need to disclose that data as collected.
2. Your data is sent off the device but only processed ephemerally. This means we access and use your data only when it is stored in memory, and retain the data for no longer than necessary to service a specific request. For example, if our QFREEMART app sends your search query off your device to retrieve search results, we only use your query data in memory and do not store the data for longer than necessary to provide the search results.
3. Your data may be transmitted using secure encryption protocols designed to protect information while it is transmitted between your device and our servers.

Sometimes our app may redirect you to a different service to complete a certain action. For example, our app may direct you to a payment service such as Stripe, Google Pay, or another similar service, to complete a purchase.

In these cases, we do not need to declare the data collected by the other service if:

1. Our app does not access this information, and
2. You provide this information directly to the other service under that service's privacy policy and terms of service.

4. Data sharing

In some cases, we do not need to declare data that is transferred to others as "shared" in the Data safety section. This includes when:

1. The data is transferred to a third party based on a specific action that you initiate, where you reasonably expect the data to be shared. For example, when you send a message to or share a document with a third party.
2. The data is transferred to a service provider to process it on our behalf. For example, we may use a service provider to host data on our behalf and in compliance with our instructions, contractual terms, privacy policies, and security standards.
3. The data is transferred for specific legal purposes, such as in response to a government request.
4. The data transferred is fully encrypted so it can no longer be accessed by unauthorized entity.

5. Security practices

Encryption of data that it collects or shares while it's in transit.

Our app is designed to let you transfer your data to another site or service. We may declare in our Data safety section that your data is transferred over a secure connection as long as we use best industry standards to safely encrypt your data while it travels between your device and our app's servers. The sites or services that you choose to have your data transferred to may have different privacy and security practices. We recommend that you review those practices independently to ensure that you are transferring your data to secure destinations.

For example, our messaging app that declares that it encrypts your data in transit may give you an option to send an SMS message through your mobile services provider. You should review the data handling practices of your mobile services provider, as it may not be using encryption in transit to securely send SMS messages over its mobile network.

6. Types of data & collection purposes

Our app may access certain categories of information through your mobile device where necessary to provide requested services. The types of information processed may include account information, device information, location data (if enabled), and activity data related to the use of the application.

We collect this data to provide you with a personalized and efficient experience while using our app. For example, we may use your location data to provide you with location-based services or use your camera and microphone to enable certain features of our app.

We take your privacy and security seriously and strive to collect only the data that is necessary to provide our services. We do not collect any data that is not relevant to the functionality of our app.

We provide information on all versions and variations of our app, so you can be fully informed about our data collection practices. This information is important for you to understand how we use your data and to make informed decisions about whether to use our app.

- **Approximate location** Yours or your device's physical location to an area greater than or equal to 3 square kilometers, such as the city you are in. **used for App functionality**
- **Precise location** Yours or your device's physical location within an area less than 3 square kilometers. **used for App functionality**
- **Name** How you refer to yourself, such as your first or last name, or nickname. **used for App functionality and Account management**
- **Email address** Your email address **used for App functionality and Account management**
- **Address** Your address, such as a mailing or home address. **used for App functionality**
- **Phone number** Your phone number **used for App functionality and Account management**
- **Other info** Any other personal information such as date of birth, gender identity, veteran status, etc. **used for Account management**
- **User payment info** User payment information required to process payments, such as payment transaction references or tokenized payment identifiers. Payment card details are processed directly by authorized payment service providers and are not stored by QFREEMART **used for App functionality and Fraud prevention, security, and compliance**
- **Purchase history** Information about purchases or transactions you have made **used for App functionality and Fraud prevention, security, and compliance**
- **Emails** Your emails, including the email subject line, sender, recipients, and the content of the email. **used for App functionality**
- **SMS or MMS** Your text messages, including the sender, recipients, and the content of the message **used for App functionality**
- **Photos** Your photos. **used for App functionality and Account management**
- **Videos** Your videos **used for App functionality**
- **Voice or sound recordings used for** Your voice, such as a voicemail or a sound recording **used for App functionality**
- **Files and docs** Your files or documents, or information about your files or documents, such as file names. **used for App functionality and Account management**
- **App interactions** Information about how you interact with the app. For example, the number of times you visit a page or sections you tap on. **used for App functionality**
- **In-app search history** Information about what you have searched for in the app. **used for App functionality**
- **Other user-generated content** Any other content you generated that is not listed here, or in any other section. For example, bios, notes, or open-ended responses. **used for Advertising or marketing**
- **Other actions** Any other activity or actions in-app not listed here, such as gameplay, likes, and dialog options. **used for Advertising or marketing**
- **Crash logs** Crash data from the app. For example, the number of times the app has crashed on the device or other information directly related to a crash **used for App functionality**
- **Diagnostics** Information about the performance of the app on the device. For example, battery life, loading time, latency, framerate, or any technical diagnostics **used for App functionality**
- **Device or other IDs** Identifiers that relate to an individual device, browser, or app. For example, an IMEI number, MAC address, Widevine Device ID, Firebase installation ID, or advertising identifier **used for App functionality**

Not all data categories listed above are collected in every case. Certain data types may only be accessed when required for specific features of the application and only when the user grants permission through the device operating system.

7. App permissions & data collection controls

The app permissions list shows the specific data or features that our app can access or may request access to. This list includes data or features that are required for our app to work, such as mobile network access, as well as data that our app requests while you use it, such as access to your camera.

This list is based on technical information that describes how our app works and is different from the Data safety section, which is based on information declared by us about how we collect, share, and handle your data.

Sometimes, the information in the app permissions list may be different from what's in the Data safety section. This can occur for several reasons, including:

1. Our app accesses data to process it on the device, but doesn't collect or share it.
2. Our app collects data in a way that's not managed by permissions.
3. The service or data type in the permissions list isn't covered in the Data safety section.

Once you download our app, we may ask for permission to access certain data on your device. If we collect data that you do not want to share, you have several options:

You can [change your app permissions for a single app](#) or [by permission type](#) in your phone's settings.
You can let your phone [automatically remove permissions for unused apps](#).
You can [delete our app to stop future data collection](#).

8. Changes to this policy

We reserve the right to amend this Privacy Policy periodically to reflect changes in the law, our data collection and use practices, the features of our services, advances in technology, and changes made by the operating system manufacturer. Please check this page periodically for updates. Your use of the information we collect is subject to the Privacy Policy in effect at the time of collection. Your continued use of the Services following the posting of changes to this Privacy Policy will indicate your consent and acceptance of those changes.

9. Contact Us

If you have any questions regarding the processing or usage of your information, or QFREEMART's Privacy Policy, or you wish to exercise your rights, you may contact us at contactus@qfreemart.in

1. General

This Privacy Notice is an integral part of the "Privacy Policy" and shall be read and interpreted in conjunction with it.

QFREEMART operates a digital marketplace platform that connects customers with independent vendors and service providers. Vendors fulfilling orders through the platform may receive limited customer information necessary to process orders, coordinate deliveries, and provide services requested by the user.

This privacy notice is applicable to all users of the QFREEMART Apple iOS-based application, including visitors to the application's website and users of the mobile application. By using the QFREEMART application, you acknowledge that you have been informed about how your personal data may be processed in accordance with this Privacy Notice and the main Privacy Policy.

This privacy notice outlines the types of personal data that the QFREEMART application collects from users, including contact information, device information, and usage data. It also explains how the collected data is used, such as for improving the application's functionality and user experience, and how it is shared with third-party service providers.

The QFREEMART application is committed to protecting user privacy and ensuring that personal data is processed in accordance with applicable data protection laws and regulations. The application takes measures to protect user data, such as encryption and secure storage, and handles security breaches and data loss in accordance with established protocols.

This privacy notice complies with the requirements of the Apple App Store Review Guidelines, including providing a clear and concise summary of the data collected and used by the QFREEMART application, as well as any third-party advertising or analytics services used. It also includes a link to the application's full privacy policy for more detailed information.

By using the QFREEMART application, you acknowledge that you have been informed about how your personal data may be processed in accordance with this Privacy Notice and the main Privacy Policy., and that you have read and understood the terms and conditions of use. The QFREEMART application reserves the right to modify or amend this privacy notice at any time without prior notice, and any such modifications or amendments shall be effective immediately upon posting. Continued use of the QFREEMART application after any such modifications or amendments constitutes acceptance of the updated privacy notice

NOTICE: The QFREEMART iOS application is distributed through the Apple App Store. When downloading or installing the application through the App Store, certain data processing may be carried out by Apple in accordance with Apple's own privacy policies. Users are encouraged to review Apple's Privacy Policy to understand how Apple processes personal data in connection with its services.

For further details please access: <https://www.apple.com/legal/privacy/en-ww/>

2. Privacy Nutrition Label

QFREEMART complies with the legal requirements under India Privacy laws as well international standards.

We collect as little personal information about you as possible in a transparent way and are committed to protecting user privacy. We process personal information and other data which can be linked to you.

Some data is kept on your device only and are not sent to servers. If data is transmitted from your device to our servers, it is transmitted using secure encryption protocols designed to protect information during transmission. Disclosure of data collection might be optional if it meets up certain cumulative conditions.

Tracking data might be collected by the app but there are situations in which such actions are not considered tracking.

There are Privacy Choices in place such as App Privacy Report, Third-party apps and permissions and more

3. App privacy Notice on App Store

The Apple App Store provides users with a clearer understanding of an app's privacy practices prior to downloading it on any Apple platform. On the product page of each app, users can access information regarding the types of data that the app may collect, as well as whether the data is associated with them or utilized for tracking purposes.

Discover how the App Privacy section outlines the [various categories of data](#) that an app may collect, such as location, contact information, and health information, among others. Additionally, the section provides insight into how the developer or its third-party partners may utilize this data, such as for advertising or analytics purposes

4. Data collection

This is for you to understand what data is collected from your app and how it is used.

“Collect” refers to transmitting data off the device in a way that allows you and/or your third-party partners to access it for a period longer than what is necessary to service the transmitted request in real time.

“Third-party partners” refers to analytics tools, advertising networks, third-party SDKs, or other external vendors whose code you’ve added to your app.

5. Types of Data and Data use

- **Name** Such as first or last name **used for App functionality**
- **Email address** Your email address **used for App functionality**
- **Phone number** Your phone number **used for App functionality**
- **Physical address** Such as a home address, physical address or postal address. **used for App functionality**
- **Payment Information** - Information required to process payments such as payment transaction references or tokenized payment identifiers. Payment card details are processed directly by authorized payment service providers and are not stored by QFREEMART. If an app uses a payment service and the payment information is entered outside the app, the information will not appear in this section. **used for App functionality**
- **Precise location** Information that describes your location with the same or greater resolution as a latitude and longitude with three or more decimal places. **used for App functionality**
- **Coarse location** Information that describes your location with lower resolution than a latitude and longitude with three or more decimal places, such as from Approximate Location Services **used for App functionality**
- **Emails or text messages** Including subject line, sender, recipients and contents of the email or message **used for App functionality**
- **Photos or videos** Your photos or videos **used for App functionality**
- **Audio data** Your voice or sound recordings. **used for App functionality**
- **Search history** Information about searches performed in the app **used for Analytics**
- **User ID** Such as screen name, handle, account ID, assigned user ID, customer number, probabilistic identifier or other user- or account-level ID that can be used to identify you or your account **used for App functionality**
- **Device ID** Such as the device's advertising identifier or other device-level ID **used for App functionality**
- **Purchase history** Your purchases or purchase tendencies **used for App functionality**
- **Product interaction** Such as app launches, taps, clicks, scrolling information, music-listening data, video views, saved place in a game, video or song, or other information about how you interact with the app **used for Analytics**
- **Crash data** Such as crash logs **used for Analytics**
- **Performance data** Such as launch time, hang rate or energy use **used for Analytics**
- **Other diagnostic data** Any other data collected for the purposes of measuring technical diagnostics related to the app **used for Analytics**

Additional data

- In-app private messaging between users that are not SMS text messages such as SMS used for App functionality
- Free-form text fields or voice recordings, and users can save any type of information they want through those mediums, including names and health data used for App functionality

6. Optional disclosure

In order for data types to be considered optional for disclosure, they must meet all of the criteria outlined. If a data type collected by our app meets some, but not all, of the criteria, it shall be disclosed in App Store Connect.

Data collected in optional feedback forms or customer service requests that are unrelated to the primary purpose of the app and meet the other criteria may not need to be disclosed. However, it is important to note that data collected on an ongoing basis after an initial request for permission, shall be disclosed for the sake of clarity.

Data types that satisfy the following criteria are considered optional for disclosure:

1. The data is not utilized for tracking purposes, which means that it is not associated with Third-Party Data for advertising or advertising measurement purposes, nor is it shared with a data broker. For further information, please refer to the Tracking section.
2. The data is not employed for Third-Party Advertising, Advertising or Marketing purposes, or Other Purposes, as defined in the Tracking section.

3. The collection of data occurs only in rare instances that are not part of the app's primary functionality and are optional for the user.
4. The user provides the data through the app's interface, and it is evident to the user what data is being collected. The user's name or account name is prominently displayed in the submission form alongside the other data elements being submitted, and the user actively chooses to provide the data for collection.

Data types collected by an app that facilitates regulated financial services and meets the following criteria are considered optional for disclosure:

1. Collection of the regulated data is in compliance with a legally required privacy notice under applicable financial services or data protection laws or regulations (e.g., GDPR or GLBA).
2. The app only collects such data in cases that are not part of its primary functionality and are optional for the user.
3. The privacy notice states that the data is not shared with unaffiliated third parties for marketing other products and services.
4. The data is not associated with third-party data for advertising purposes or shared with a data broker, except for fraud detection or prevention, security purposes, or with a consumer reporting agency for credit reporting.

Data types shall meet all of the above criteria to be considered optional for disclosure. If a data type collected by the app satisfies some, but not all, of the criteria, it shall be disclosed in the privacy section.

7. Data linked to the user

QFREEMART commits to taking all necessary actions to comply with the following conditions regarding the collection and handling of user data:

- We identify whether each data type is linked to the user's identity (via their account, device, or other details) by us and/or our third-party partners.
- We implement specific privacy protections like encryption while handling data transfer between server & application on the device.
- We acknowledge that "Personal Information" and "Personal Data", as defined under relevant privacy laws, are considered linked to the user.

8. Tracking

"Tracking" refers to linking data collected from the app about a particular end-user or device, such as a user ID, device ID, or profile, with Third-Party Data for targeted advertising or advertising measurement purposes, or sharing data collected from the app about a particular end-user or device with a data broker.

"Third-Party Data" refers to any data about a particular end-user or device collected from the app, website, or offline properties not owned by us.

The following situations are not considered tracking:

1. When the data is linked solely on the end-user's device and is not sent off the device in a way that can identify the end-user or device.
2. When a data broker uses the data shared with them solely for fraud detection or prevention or security purposes.
3. When a data broker is a consumer reporting agency and the data is shared with them for purposes of (1) reporting on a consumer's creditworthiness or (2) obtaining information on a consumer's creditworthiness for the specific purpose of making a credit determination.

Examples of tracking may include, but are not limited to:

1. Displaying targeted advertisements on our app based on user data collected from apps and websites owned by other companies.
2. Sharing device location data or email lists with a data broker.
3. Sharing a list of emails, advertising IDs, or other IDs with a third-party advertising network that uses that information to retarget those users in other developers' apps or to find similar users.
4. Placing a third-party SDK in our app that combines user data from our app with user data from other developers' apps to target advertising or measure advertising efficiency, even if we don't use the SDK for these purposes. For instance, using an analytics SDK that repurposes the data it collects from our app to enable targeted advertising in other developers' apps.

9. Privacy Choices

App Privacy Report

By enabling the App Privacy Report, you can quickly and easily view the activity of your app. In the Settings section, you can see how frequently your location, photos, camera, microphone, and contacts have been accessed within the past seven days. Additionally, the report displays the domains that apps have contacted. When used in conjunction with Privacy Nutrition Labels, this feature provides a comprehensive overview of how our app handles your privacy

Third-party apps and permissions

Apple provides you with transparency and control over the data you share with apps. When an app requests access to your location, contacts, calendars, or photos, you will receive a prompt with an explanation, allowing you to make an informed decision

about granting permission. Even if you grant access once, you can always change it later in Settings. iOS and iPadOS require developers to obtain your permission before tracking you or your device across apps and websites owned by other companies for ad targeting, ad measurement purposes, or to share your data with data brokers.

Without your permission, no app can access your microphone or camera. In iOS 14 and iPadOS 14 or later, your device displays an indicator when an app uses the microphone or camera, whether you are in the app, in another app, or on the Home Screen. Control Center also shows you when an app has recently used the microphone or camera. In iOS and iPadOS, access to the camera is disabled for an app when it is in the background.

In some cases, apps may need to know what other devices are on your local network, such as when you are attempting to connect to a smart TV or printer. Starting with iOS 14 and iPadOS 14, apps must request your permission before scanning your local network.

Location data

Our App may need to know your device's location in certain situations, such as when you place an order or set up your address. Location Services on your device utilizes a combination of GPS, Bluetooth, and crowd-sourced Wi-Fi hotspots and mobile towers to determine your location. Apple provides you with control over the collection and use of this location data. With iOS 14, iPadOS 14, and watchOS 7, you can choose whether apps have access to your approximate location, which covers an area of approximately 10 square miles, rather than your precise location. Location Services is not enabled by default. You can activate it during the initial setup of your device, and you can always disable it if you change your mind

Analytics

If you choose to opt in and provide explicit consent, our App can collect analytics data about your device. This analysis assists us in enhancing our products and reducing issues such as app crashes. The collected information does not personally identify you and can only be sent to us with your explicit consent. Analytics data may include details about hardware and operating system specifications, performance statistics, and data about how you use your device and applications. Personal data is either not logged at all, removed from reports before they are sent to us, or protected through encryption and/or anonymisation. The information gathered through Analytics helps us identify the causes of performance issues and improve our services without compromising individual privacy. This data enables us to collaborate with developers to enhance your experience without disclosing any information about your individual behavior.

You may anytime revoke our permission to collect analytics by accessing Settings.

10. Changes to this policy

We reserve the right to amend this Privacy Policy periodically to reflect changes in the law, our data collection and use practices, the features of our services, advances in technology, and changes made by the operating system manufacturer. Please check this page periodically for updates. Your use of the information we collect is subject to the Privacy Policy in effect at the time of collection. Your continued use of the Services following the posting of changes to this Privacy Policy will indicate your consent and acceptance of those changes

11. Contact Us

If you have any questions regarding the processing or usage of your information, or QFREEMART's Privacy Policy, or you wish to exercise your rights, you may contact us at contactus@qfreemart.in

2. What types of cookies and similar technologies do we use?
3. What other similar technologies do we use?
 - 3.1 Local storage
 - 3.2 Pixels
 - 3.3 Beacons
 - 3.4 Log files
4. What are Mobile Application Cookies?
 - 4.1 How are Mobile Application Cookies Utilised?
 - 4.2 How do Mobile Application Cookies Differ from Web Browser Cookies?
5. How cookies are used on our services.
6. Third party cookies
7. Your choices

This Cookies policy is an integral part of the "Privacy Policy" and shall be read and interpreted in conjunction with it.

QFREEMART operates a digital marketplace platform that connects customers with independent vendors and service providers. Vendors using the platform may operate their own websites or services and may use their own cookies or similar technologies in accordance with their respective privacy policies.

1 About cookies and similar technologies

A cookie, being a small text file, is automatically transmitted to your device and subsequently stored by your web browser. Within this cookie resides a distinctive identifier (comprising a sequence of random characters) which distinguishes your browser from others. Cookies frequently serve the purpose of establishing a connection between your browser and databases that retain information regarding your usage patterns, inferred interests, and additional data like your IP address. These cookies fulfill various functions, ranging from facilitating the functionality of the website by recognizing you as the same user while navigating between pages, to analyzing popular content and personalized content based on browsing behavior and interests.

Cookies can be stored by the website you visit (known as "first-party cookies"), or by technology providers such as analytics companies, advertising networks, or social media platforms (known as "third-party cookies"). Third-party cookies may be employed to correlate your browsing behavior across multiple websites. Cookies are either stored for the duration of your visit (referred to as "session cookies"), or they persist on your device for a predetermined period (typically several months or longer) to remember you across multiple browsing sessions (referred to as "persistent cookies"). Alternative forms of storage, such as local or "HTML" storage

2. What types of cookies and similar technologies do we use?

We use the following types of cookies:

Session cookies: are stored for the duration of a browser session; when you close the browser, the cookie is deleted.

Persistent cookies: are stored for a preset amount of time (often between 90 days and two years, depending on the application) and are typically not deleted when a browser session is closed.

First-party cookies: These cookies are set by our website or mobile application.

Third-party cookies: These cookies are set by a third-party website or service, such as an advertising network.

Your choices may affect whether we use session or persistent cookies for a particular application. For example, if you select "Remember Me," your two-step verification status is stored on a persistent cookie for 30 days to remember the device that you signed in from.

3. What other similar technologies do we use?

Websites and email communications may employ embedded code, also known as pixels, to monitor your interactions with them. This code recognizes your browser through the unique identifier stored in their cookie or your device's "AdID." Such tracking technologies are frequently employed to transmit data about your browsing activities to third parties, such as social media companies or advertisers, in order to measure engagement with their content or to personalize advertisements or marketing materials.

3.1 Local storage

Local storage enables a website or application to store information locally on your device(s). Local storage may be used to improve the QFREEMART experience, for example, by enabling features, remembering your preferences and speeding up site functionality.

3.2 Pixels

A pixel is a tiny image that may be embedded within web pages and emails, requiring a call (which provides device and visit information) to our servers in order for the pixel to be rendered in those web pages and emails. We use pixels to learn more about your interactions with email content or web content, such as whether you interacted with ads or posts. Pixels can also enable us and third parties to place cookies on your browser.

3.3 Beacons

For example, we may place web beacons in marketing emails that notify us when you click on a link in the email that directs you to one of our websites. Such tracking technologies are used to operate and improve our websites and email communications and track the clicking of links or opening of emails.

3.4 Log files

We collect non-personal information through our Internet log files, which record data such as browser types, domain names, and other anonymous statistical data involving the use of the QFREEMART services. This information may be used to analyze trends, to administer the QFREEMART services, to monitor the use of the QFREEMART services, and to gather general demographic information. In certain circumstances, aggregated log data may be analyzed together with other operational data to improve services, investigate security incidents, or enhance user experience. Where personal data is involved, such processing will be conducted in accordance with the Privacy Policy and applicable data protection laws.

4. What are Mobile Application Cookies?

Mobile applications may use technologies similar to cookies such as local storage, device identifiers, and application storage mechanisms to retain user preferences and support application functionality. Unlike traditional browser cookies, these technologies may rely on platform-specific storage systems provided by the mobile operating system. These technologies may serve purposes similar to cookies, such as retaining user preferences, monitoring application activity, and customizing the user experience. It is worth noting that mobile applications might employ alternative technologies like local storage or key-value pairs to store data in lieu of cookies. Moreover, certain mobile platforms may impose limitations on the usage of cookies, particularly with regards to safeguarding user privacy."

4.1 How are Mobile Application Cookies Utilised?

Mobile application cookies find application in various capacities, encompassing:
Retaining user preferences, encompassing language selection and font size
Monitoring user activities spanning across diverse applications and websites
Tailoring the user experience to individual preferences
Delivering targeted advertisements"

4.2 How do Mobile Application Cookies Differ from Web Browser Cookies?

Mobile Web cookies:

Cookies are also present on the mobile web, just like they are on desktop devices. Users who browse the Internet using mobile web browsers have cookies placed on their browsers. Each mobile browser, similar to desktop browsers, possesses distinct cookie settings and manages first-party and third-party cookies in varying ways. In essence, cookies function entirely on the mobile web. The primary constraint of cookies on mobile browsers is that they reset when the browser is closed or when the phone is powered off or restarted.

Mobile application cookies exhibit dissimilarities compared to web browser cookies in several aspects. Firstly, mobile application cookies are stored on the user's device, whereas web browser cookies are stored on the user's computer. Secondly, mobile application cookies are capable of tracking user behavior across different apps and websites, while web browser cookies can solely track user behavior on a single website. Lastly, certain mobile platforms may impose limitations on the utilization of cookies, especially concerning user privacy concerns.

We employ restricted usage of cookies within Mobile Apps. In certain cases, mobile platforms may provide device identifiers such as an advertising identifier (a randomly generated and resettable identifier provided by the operating system). These identifiers may be used, subject to user permissions and platform policies, for analytics, service improvement, or advertising measurement purposes. In some cases, this information may be analyzed together with other operational data such as approximate geographic or network location to improve service performance and user experience. This data is utilized in a manner akin to cookies, such as for analyzing and enhancing services, as well as delivering marketing and advertising content to you (if the App is supported by advertising).

In summary, while cookies might be utilized in mobile applications, the actual implementation relies on the particular app and the platform it is constructed upon.

More information

All about cookies (<http://www.allaboutcookies.org/>)

5. How cookies are used on our services?

Cookies are employed for the designated purposes outlined below. The precise cookies utilized by a particular service are enumerated and explicated within the cookie management platform specific to that service. This information is presented to you upon your initial visit to the website, during periodic updates of the cookies utilized, and/or when we periodically request you to review your preferences. Accessing the preference center can be done by clicking on "Cookie Settings," typically located in the footer of the service.

Necessary: These cookies are of vital importance as they are technically indispensable for ensuring the efficient functioning of the service. Their purpose includes facilitating your navigation within the service, remembering your cookie preferences, maintaining the security of our service, and managing system administration tasks such as preventing fraudulent or disruptive activities. Without these cookies, the service may not be able to operate as intended, making them non-optional in nature.

Functional: These cookies serve to enhance your experience or provide requested features by supporting specific functionalities. They are designed to improve the overall user experience by adding valuable capabilities or fulfilling specific user requests.

Statistics/Performance: These cookies are employed to facilitate the analysis and enhancement of the service's performance. They play a crucial role in providing valuable insights such as the total number of users, the most popular sections of our sites, the preferred web browsers (enabling us to optimize compatibility), the geographical location of our users, as well as their demographics and interests. This information enables us to gain a better understanding of our user base, ensure effective targeting of our intended audience, and enhance and customize our services accordingly. Furthermore, cookies may be utilized to measure the effectiveness of our marketing campaigns, both online and through email communications.

Marketing: These cookies enable us to display marketing messages or advertisements on our Services as well as other online platforms. They also facilitate our assessment of the effectiveness of our marketing efforts, including whether you have viewed or interacted with any of our advertisements. In order to promote our services to you, we may employ marketing technologies that allow for personalized messaging based on your usage of the service and inferred interests. Additionally, these cookies support social media functionalities, such as enabling you to share our content via your social media accounts and embedding content from social media platforms, such as videos. It's important to note that the companies providing these services may utilize cookies to deliver these features or to track your usage of their respective services.

6. Third party cookies

We collaborate with several specialized companies that assist us in the efficient operation of our services and the provision of marketing functionalities, as elucidated in the preceding section. These technology providers utilize and manage cookies on our services, which may also be utilized for their own purposes, including the tracking of your browsing behavior across multiple websites. We carry out thorough assessments that these companies maintain the security of your data and handle it in a fair and responsible manner.

7. Your choices

We believe that by providing these choices, we empower you to tailor your cookie settings according to your privacy preferences. Our aim is to ensure a transparent and user-centric experience within our mobile app. We aim to ensure that you can make informed decisions regarding your privacy preferences. Therefore, we provide you with the following choices regarding cookies:

Consent for Cookie Usage:

We prioritize your consent. Prior to deploying any cookies within our app, we will explicitly ask for your consent. We will clearly explain the specific behaviors that the cookies will track. You will have the option to either consent or reject the use of cookies.

Mobile App Consent Management Tools:

To ensure compliance with international privacy laws and facilitate the collection of user consent, we utilize mobile app consent management tools. These tools assist us in obtaining and managing your consent for cookie usage.

Managing or Disabling Cookies in Mobile Device Settings

The steps for disabling cookies in mobile device settings will vary depending on the device and operating system. However, in general, you can find the settings by going to the Settings app, then selecting Privacy or Security. From there, you should be able to find an option to disable cookies.

Deleting Existing Cookies:

If you desire, you can choose to delete any existing cookies stored on your mobile device. This option enables you to clear previously stored cookie data.

Uninstalling Apps That Use Cookies

If you are concerned about the privacy implications of mobile application cookies, you can uninstall any apps that you do not trust. To uninstall an app, open the App Store or Google Play app, then find the app that you want to uninstall. Tap the app's icon, then tap Uninstall.

Using Browsers That Do Not Support Cookies

There are a few mobile browsers that do not support cookies. These browsers include Firefox Focus and DuckDuckGo Privacy Browser. If you are concerned about the privacy implications of mobile application cookies, you can use one of these browsers instead of your default mobile browser.

It is important to note that disabling cookies may impact your ability to use some mobile applications. For example, you may not be able to log in to some apps or you may not be able to receive push notifications. Additionally, some apps may not function properly if cookies are disabled.

Allowing, Blocking, and Setting Preferences:

You have the flexibility to allow or block all cookies based on your preferences. Additionally, you can set specific preferences for certain websites, allowing you to have control over the types of cookies you wish to accept.

Google Chrome browser (<https://support.google.com/chrome/answer/95647?hl=en>)

Microsoft Internet Explorer browser (<https://support.microsoft.com/en-us/help/17442/windows-internet-explorer-delete-manage-cookies>)

Mozilla Firefox browser (<http://support.mozilla.org/en-US/kb/cookies-information-websites-store-on-your-computer?redirectlocale=en-US&redirectslug=Cookies>)

Apple Safari browser (<https://support.apple.com/en-ae/HT201265>)

If you are concerned about the privacy implications of mobile application cookies, you should weigh the benefits and drawbacks of disabling cookies before making a decision.
